Pelican Products, Inc.

Date: 2018-06-07

To Whom It May Concern:

We received a grant for this device on 5/23/2018, with FCC ID: 2AOIU-7070R. This is a wireless charger that is used with a flashlight. The grant is equipment class DCD for the wireless charger at 0.112-0.205 MHz. The flashlight that works with this wireless charger contains a BLE transmitter under equipment class DTS. The TCB mistakenly granted this BLE DTS transmitter for the wireless charger, under TC# TC663184. The wireless charger does not contain a BLE transmitter.
On 6/5/2018, we received a grant for the BLE DTS transmitter in the flashlight, with FCC ID: 2AOIU-7070R2. Please remove the DTS grant for FCC ID: 2AOIU-7070R, under TC# TC663184. The DCD grant for FCC ID: 2AOIU-7070R is correct.
We confirm that no products were sold in the United States or any where in the world bearing the FCC ID number in question.

Sincerely,

LAICHANG TANG
