REQUEST TO MODIFY FCC EXHIBITS

Dear Mr. Gary Li,

I'm writing to request that the exhibits associated with the FCC application of the A-01 Headphones (FCC ID: 2AOIVA01) be modified to correctly represent the current product marking. I'm hereby providing Intertek as the granting TCB with permission to send a KDB Inquiry with a justification to request that the application be put into "audit" mode.

The label location images are to be updated to show that the FCC ID is printed on the inside of the left hand headphone armature and the 15.19, 15.21 and 15.105 statements are printed on the safety information booklet.

Kind regards, Alex Afflick
