

LED Indicator		
Wireless Charging Indicator	Flashing white	Wireless charging activated
	Solid white	Charging wirelessly
	Flashing white quickly	Metal or abnormal objects detected
	Off	Wireless charging off
Battery Level Indicator	Flashing white	Battery input/output
	Solid white	Showing the current battery level
	Off	No battery power

Note: When your Magnetic Battery exceeds the temperature limit, the battery level indicator will turn off. Let it cool down before use.

- This wireless charger is not compatible with non-Magsafe phone cases, such as Otterbox Defender cases.
- Do not use an adapter with an output of 5V/1A (5W) or less.
- Wireless chargers make charging more convenient than wired chargers, but confined by current wireless technology, their charging speed is slower than that of wired chargers.
- High temperatures will reduce charging speed and restrict power, which is something that happens to all wireless chargers. It is recommended that you charge your device in environments with temperatures below 25°C / 77°F.
- Both the protective phone case and the position of your device on the wireless charger will affect the charging speed. The farther it is placed from the center of the wireless charger, the slower the charging speed will be.

Important Safety Instructions

When using this product, basic precautions should always be followed, including the following:

- 1) Store the product in a cool and dry place.
- 2) Do not store the product in a hot or humid environment.
- 3) Use of a power supply or charger not recommended or sold by the product manufacturer may result in a risk of fire or injury to persons.
- 4) Operating temperature should be between 0°C to 40°C / 32°F to 104°F.
- 5) Do not disassemble the product. Take it to a qualified service person when service or repair is required. Incorrect reassembly may result in a risk of fire or injury to persons.
- 6) If the product is not used for long periods of time, you should charge and discharge it once every three months.
- 7) When charging a device, the product may feel warm. This is a normal operating condition and should not be a cause for concern.
- 8) In normal conditions, the battery performance will decline over several years.

- 9) Do not dispose of the product in heat or fire.
- 10) Do not clean the product with harmful chemicals or detergents.
- 11) Misuse, dropping, or excessive force may cause product damage.
- 12) When disposing of secondary cells or batteries, keep cells or batteries of different electrochemical systems separate from each other.
- 13) Be aware that a discharged battery may cause fire or smoke. Tape the terminals to insulate them.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: (1) Reorient or relocate the receiving antenna. (2) Increase the separation between the equipment and receiver. (3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. (4) Consult the dealer or an experienced radio / TV technician for help.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Product Name: Anker 621 Magnetic Battery (MagGo)

Model: A1610

The following importer is the responsible party (for FCC matters only).

Company Name: Fantasia Trading LLC.

Address: 5350 Ontario Mills Pkwy, Suite 100, Ontario, CA 91764

Telephone: +1 800 988 7973

Warning

Magnet only provides wireless charging coil positioning and cannot be used as a mobile phone battery.

Notes to users: Recommended to be placed on the table during charging.

IC Statement

This device complies with RSS-216 of Industry Canada. Operation is subject to the condition that this device does not cause harmful interference.

Déclaration d'Industrie Canada

Cet appareil est conforme à la norme RSS-216 d'Industrie Canada. Son utilisation est soumise aux conditions voulant que cet appareil ne cause aucune interférence nuisible.

RSS-Gen Issue 5 February 2021

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RSS-Gen numéro 5 Février 2021

Cet appareil contient des émetteurs / récepteurs exemptés de licence conformes aux RSS (RSS) d'Innovation, Sciences et Développement économique Canada. Le fonctionnement est soumis aux deux conditions suivantes:

- (1) Cet appareil ne doit pas causer d'interférences.
- (2) Cet appareil doit accepter toutes les interférences, y compris celles susceptibles de provoquer un fonctionnement indésirable de l'appareil.

Tout changement ou modification non expressément approuvé par la partie responsable de la conformité pourrait annuler l'autorité de l'utilisateur à utiliser l'équipement.

RF exposure statement

The equipment complies with IC Radiation exposure limit set forth for uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

03

This device complies with Industry Canada license-ICES-003. Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

This digital apparatus complies with CAN ICES-003(B)/NMB-003(B).

Le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This product complies with the radio interference requirements of the European Community.

EU Declaration of Conformity

Hereby, Anker Innovations Limited declares that the product type A1610 is in compliance with Directives 2014/53/EU & 2011/65/EU. The full text of the EU declaration of conformity is available at the following internet address: <https://www.anker.com/>

This symbol indicates that this product shall not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

GB Declaration of Conformity

Hereby, Anker Innovations Limited declares that the product type A1610 is in compliance with Radio Equipment Regulations 2017 and The Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment Regulations 2012. The full text of the GB declaration of conformity is available at the following internet address:

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 20mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

This device is in compliance with the essential requirements and other relevant provisions of UKCA. All essential radio test suites have been carried out.
