

Operation Manual

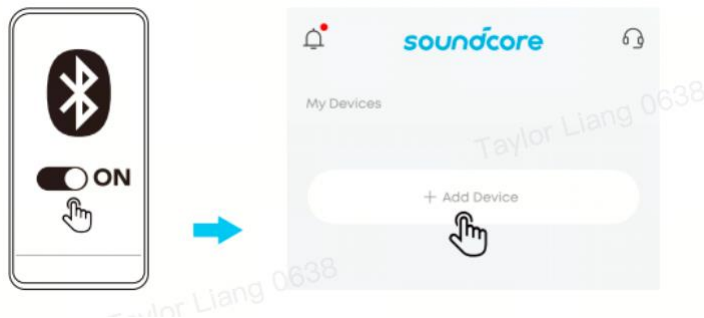

1. First Activation Instructions

When using the device for the first time, please first remove the protective film, then reinstall the microphone to activate the device. The LED indicator light will stay on for 5 seconds to indicate successful activation.

2. Connection and Pairing Instructions

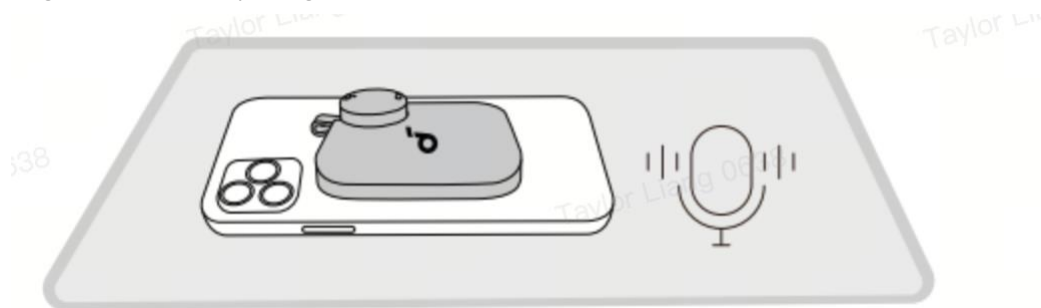

Open the Bluetooth settings on your phone, then search for and add the device in the app.

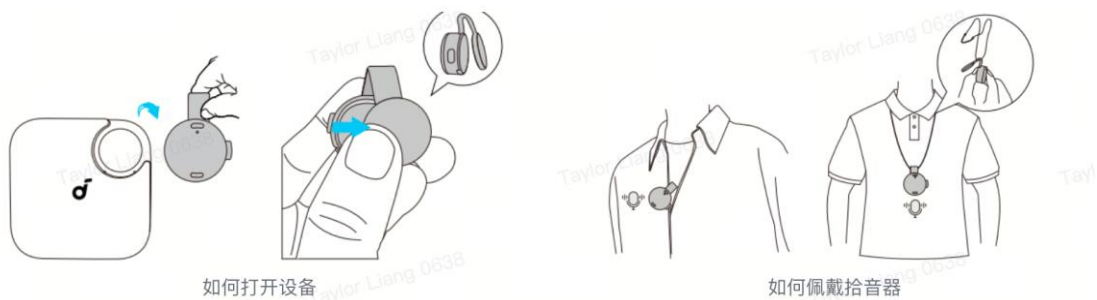

3. Recording Modes

The device can be magnetically attached to the back of the phone, allowing you to start recording directly.

* If you are using an Android phone or an iPhone with a protective case, please use the magnetic ring included in the package.

You can also take the pickup out of the charging case, clip it to your clothes, or wear it with the necklace lanyard.

4. Hardware Interaction Instructions

1. Press the button on the side of the pickup to start recording, and press the button again to stop recording.
2. During recording, you can double-click the pickup panel to mark key points.
