Congratulations!

Now you're all set to use your eufyCam C35!

Please explore more in the eufy app.

Important Safety Instructions

- Do not insert or remove the MicroSD card while the device is powered on.
- The recommended temperature range for the devices and accessories is -20°C to 45°C (-4°F to 113°F).
- The recommended temperature range for T8025 is -10°C to 50°C (14°F to 122°F).
- Unless specifically indicated that it is safe to do so in the user guide or instruction manual, do not use the devices in an environment that exceeds the recommended low or high temperature.
- Unless specifically indicated that it is safe to do so in the user guide or instruction manual, avoid exposing your devices to direct sunshine or excessively wet environments.
- Do not use the product in any way other than described herein in order to avoid personal injury or property damage.
- Users should comply with the laws and regulations of the corresponding countries and regions where the equipment is located(used), abide by professional ethics, pay attention to safety obligations, and strictly prohibit the use of our products or equipment for any illegal purposes. Our company will not be responsible for any violators' legal liability under any circumstances.
- When charging, place the devices in an environment that has a normal room temperature and good ventilation.
- For pluggable equipment, the socket outlet should be easily accessible.
- Use only the adapters provided by the manufacturer. Using unauthorized adapters may cause danger and violate the Terms of Use and warranty article.

Warning

- Replacing a battery with an incorrect type may bypass safeguards and create danger;
- Disposal of the battery in a fire or a hot oven or other source of significant heat, or mechanically crushing, or cutting of the battery, may result in an explosion or leakage of

flammable liquids or gases;

- Leaving the battery in an extremely hot environment may result in an explosion or leakage of flammable liquids or gases;
- Subjecting the battery to extremely low air pressure may result in an explosion or leakage of flammable liquids or gases.

Child Safety

- THIS DEVICE IS NOT A TOY.
- Choking Hazard: This product contains (or comes with) small parts, plastic elements, cables, and parts that may cause choking hazards. Keep your camera and its accessories out of the reach of small children. Consult a physician immediately if small parts are swallowed.
- Strangulation Hazard: Children get strangled in cords. Keep cords out of the reach of children (more than 3 ft / 0.9 m away).
