Notice

• Do not use the equipment in the environment at too high or too low temperatures. Never expose the equipment under strong sunshine or too wet environment.

• The suitable temperature for the equipment is -10°C to 50°C (14°F to 122°F) for the interior lock, and -30°C to 70°C (-22°F to 158°F) for the exterior lock.

• When supplying, please place the equipment in an environment that has a normal room temperature and good ventilation.

• It is recommended to supply the equipment in an environment with a temperature that ranges from 5°C - 25°C (41°F - 77°F).

• The equipment is only suitable for mounting at heights ≤ 2 m.

• Do not use the equipment in any way other than described herein in order to avoid personal injury or property damage.

• User should comply with the laws and regulations of the corresponding countries and regions where the equipment is located (used), abide by professional ethics, pay attention to safety obligations, and strictly prohibit the use of our products or equipment for any illegal purposes. Our company will not be responsible for any violators' legal liability under any circumstances.

Warning

• Replacing a battery with an incorrect type may bypass safeguards and create danger;

• Disposal of the battery in a fire or a hot oven or other source of significant heat, or mechanically crushing, or cutting of the battery, may result in an explosion or leakage of flammable liquids or gases;

• Leaving the battery in an extremely hot environment may result in an explosion or leakage of flammable liquids or gases;

• Subjecting the battery to extremely low air pressure may result in an explosion or leakage of flammable liquids or gases.

CAUTION!

THERE IS A RISK OF EXPLOSION IF AN INCORRECT BATTERY TYPE IS USED. DISPOSE OF USED BATTERIES ACCORDING TO THEIR INSTRUCTIONS.

FCC Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

IC Radiation Exposure Statement

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

This symbol means the product must not be discarded as household waste, and should be delivered to an appropriate collection facility for recycling. Proper disposal and recycling helps protect natural resources, human health and the environment. For more information on disposal and recycling of this product, contact your local municipality, disposal service, or the shop where you bought this product.

FCC Radio Frequency Exposure Statement

The device has been evaluated to meet general RF exposure requirements. The device can be used in fixed/mobile exposure condition. The min separation distance is 20cm.

Notice: Shielded cables

All connections to other computing devices must be made using shielded

cables to maintain compliance with FCC regulations.

The following importer is the responsible party
Company Name: POWER MOBILE LIFE, LLC
Address: 10800 NE 8TH ST #900, BELLEVUE, WA, 98004, UNITED STATES
Telephone: 1-800-988-7973

IC Statement

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions:

(1) this device may not cause interference, and
(2) this device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-003.

IC Radiation Exposure Statement

When using the product, maintain a distance of 20cm from the body to ensure compliance with RF exposure requirements.

Aviso

• No utilice el dispositivo en entornos con temperaturas demasiado altas o bajas. Nunca exponga el dispositivo a la luz solar intensa ni a entornos demasiado húmedos.

• La temperatura adecuada para el equipo es de -10°C a 50°C (14°F a 122°F) para la cerradura interior, y de -30°C a 70°C (-22°F a 158°F) para la cerradura exterior.

• Durante la carga, coloque el dispositivo en un ambiente que tenga una temperatura normal de la habitación y una buena ventilación.

• Il est recommandé de fournir l'appareil dans un environnement dont la température varie de 5°C à 25°C (41°F à 77°F).

• El equipo solo es adecuado para ser montado a alturas ≤ 2 m.

• No use el producto de ningún modo diferente a lo descrito en este documento para evitar lesiones personales y daños materiales.

• El usuario debe cumplir la ley y la normativa del país y región donde esté ubicado (se use) el equipamiento, manejarse conforme a la ética profesional, prestar atención a las obligaciones de seguridad y prohibir terminantemente el uso de nuestros productos o equipamientos con fines ilegales. Nuestra empresa no se hace responsable legal de ningún incumplimiento bajo ninguna circunstancia.

ADVERTENCIA

• Si se cambia la pila por otra de tipo incorrecto, la seguridad se podría ver comprometida y dar lugar a situaciones peligrosas;

• Arrojar una batería al fuego o a un horno caliente, o aplastarla o cortarla mecánicamente, lo que puede provocar una explosión;

• Dejar una batería en un entorno de temperatura extremadamente alta que pueda provocar una explosión o la fuga de líquido o gas inflamable;

• Una batería sometida a una presión de aire extremadamente baja que puede provocar una explosión o la fuga de líquido o gas inflamable.
