

6 Test Setup Photos

Radiated Spurious Emission

Below 1GHz

Above 1GHz

Remark:

1. For measurements below 1 GHz, the EUT was placed on an 80 cm-high test table for both testing and photography.
2. For measurements above 1 GHz, the EUT was placed on an 80 cm-high test table with an additional 70 cm-high test table on top, for a total height of 150 cm, for both testing and photography.
