

Dual Alarm Clock Radio

Model: SBC007

USER MANUAL

V3.0 10.17

Thank you for your purchase of the SVINZ product. Please read this instruction manual carefully before using product to ensure proper use. Keep this manual in a safe place for further reference.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The product use distance more than 20cm from human body.

INSTRUCTIONS GUIDE

ALARM DURATION

The buzzer alarm or Radio alarm will sound for 30 minutes if no key is pressed, then it will stop automatically and resume to the same alarm time on next scheduled day. To stop ALARM 1 and/or ALARM 2 when sounding, press the **Q/M** button on the top of the unit. Press the **AL2/V+** or **AL1/V-** button to increase or decrease the volume when sounding.

SNOOZE FUNCTION

When alarm is sounding, press the **SNOOZE/LIGHTING** button to stop alarm for 9 minutes. Alarm will resume after 9 minutes. Press the **Q/M** button will cancel the snooze function. Snooze function will also stop automatically after 30 minutes.

ADJUSTING LED BRIGHTNESS

You can adjust the brightness of the LED display making it brighter, dimmer or even turning it off. There are four dimming options available: HIGH/MEDIUM/LOW/OFF (Standby). Press the **DIMMER** button to toggle between the four brightness settings.

AUDIO OPTIONS

- Press the **Q/M** button to toggle between the audio options : FM Radio, Bluetooth and AUX-IN
- There are voice reminders when the audio mode is selected and the LED sign will be displayed as: FM, BT, AU separately.
- Press and hold the **Q/M** button to quit the audio mode. There is a voice "Clock Mode" sounded means the audio mode is quit.

LISTENING TO THE RADIO

- Press the **Q/M** button to switch to FM radio mode.
- FM Frequency 87.5 MHz will be displayed at the first time.
- Press and hold the **W+** or **W-** button to manual-scan to the next radio station.
- Press and hold the **W+** button 2 seconds to automatically scan up the frequency bands and play the first station it finds with a good signal when the auto-scan is complete.
- Press the **AL1/V-** button or **AL2/V+** button to adjust the radio volume.
- Press and hold the **Q/M** button to quit FM Radio.
