Petronics Compliance and FCC statements

This equipment has been tested and found to comply with the requirements of Part 15 of the FCC Rules. This equipment does not cause interference, and it is not intended to be used in a way that causes interference to radio communications. Interference will not occur in a particular area which can be determined by harmful interference measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a different circuit.
- Consult the dealer or an experienced radio/television technician for help.

This equipment complies with FCC radio frequency requirements. This equipment must be used in an uncontrolled environment. This equipment must not be co-located or operating in conjunction with other equipment.

IC statements:
This device complies with Industry Canada's radio equipment license exemption conditions. Operation is subject to the following two conditions: (1) the device must not cause interference, and (2) the device must accept any interference that may cause undesired operation.

Le présent appareil est conforme aux CNR d'exemption de licence d'Industry Canada. L'exploitation est soumise aux deux conditions suivantes : (1) l'appareil ne doit pas produire d'interférence et (2) l'appareil doit accepter toute interférence radioélectrique susceptible d'en compromettre le fonctionnement.
