

# Meander Line Specification

## Summary

|                      |                                                                                                                                            |
|----------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| ITEM                 | ANT SPEC                                                                                                                                   |
| Model Name           | 2.4G ANT                                                                                                                                   |
| MAX. Gain            | -0.58dBi                                                                                                                                   |
| Azimuth Beam Pattern | Omni-directional                                                                                                                           |
| Impedance            | 8.45-j22.5                                                                                                                                 |
| Manufacture          | Shenzhen Vmart Electronics Science and Technology Co., Ltd. / Mong Kok, Kowloon, Hong Kong 33 Mong Kok Road, Bright Way Tower, Rm 704, 7/F |

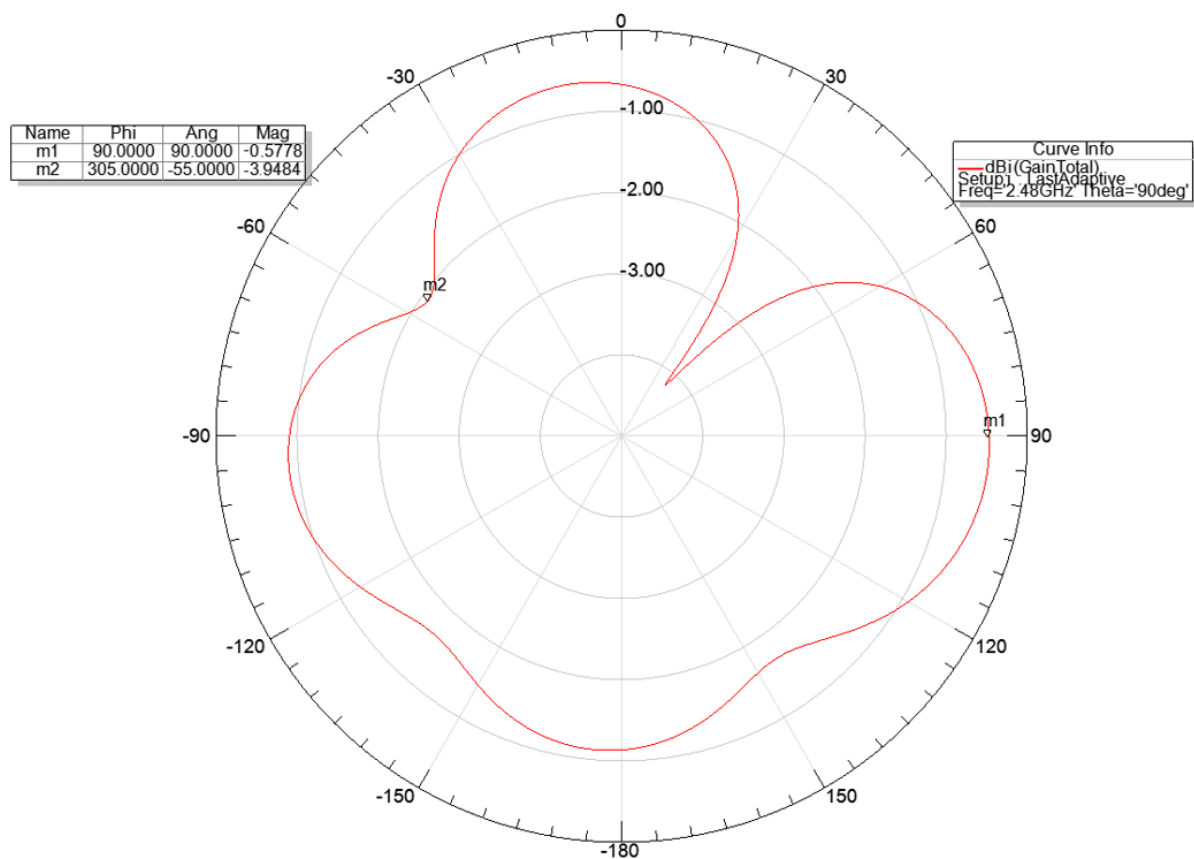

## Antenna Photo & Length (mm)

Frequency: 2450 MHz

Gain Unit: dBi

Max: 0 Min: -5 Scale: 1/div

ANT Test Labs: Attestation of Global Compliance Co., Ltd.
