

A. LABEL LOCATION EXHIBIT

The label location exhibit MUST show where the label is located on the device.

A proper label location would be a photograph or drawing of the device with the label clearly identified.

Example:

Due to the size, appearance, shape and shell material of the product, the warning words related to the requirements of FCC PART 15.19 cannot be placed on the product mainbody, thus the content of the warning words will be described in the instruction manual.

The warning words of FCC PART 15.19:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
