

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the internal components of an EUT. On a blue textured background, there are two black plastic housing pieces, a small green printed circuit board (PCB) with gold contacts, and a silver USB connector. A metal ruler is placed vertically on the left, showing centimeters from 1 to 11, and horizontally at the bottom, showing millimeters from 1 to 12. The PCB is approximately 2 cm long and 0.5 cm wide.
Solder Board-Component View 1	 A close-up photograph of the green PCB component. It shows various electronic components including a microcontroller, resistors, and capacitors. The gold contacts are visible on the right side. A metal ruler is placed vertically on the left, showing centimeters from 1 to 7, and horizontally at the bottom, showing millimeters from 1 to 7. The component is approximately 2 cm long and 0.5 cm wide.

Solder Board-Component View 2	 A photograph showing a small green printed circuit board (PCB) component with various electronic components, including a black integrated circuit and several surface-mount components. The component is placed on a blue textured surface. Two metal rulers are used for scale: a vertical one on the left and a horizontal one at the bottom. The vertical ruler shows the component is approximately 1.5 cm high. The horizontal ruler shows it is approximately 1.5 cm wide. A 0.5 mm scale is also visible on the horizontal ruler.
Antenna View	 A photograph showing the same green PCB component from a different angle, highlighting the antenna structure. A red box labeled "BT Antenna" is drawn around the antenna area, with a red line pointing to it. The component is placed on a blue textured surface. Two metal rulers are used for scale: a vertical one on the left and a horizontal one at the bottom. The vertical ruler shows the component is approximately 1.5 cm high. The horizontal ruler shows it is approximately 1.5 cm wide. A 0.5 mm scale is also visible on the horizontal ruler.
