USING YOUR EARBUDS

Power On (Fig. 1)

Uncover the lid and they will power on automatically.

Power Off (Fig. 2)

Put the earbuds into the charging case and close the lid, they will turn off automatically.

Pairing

- You can use one earbud or both earbuds as per your preference. Please refer to the corresponding pairing instructions.
- Before pairing, please turn off other Bluetooth devices and place the device to be connected close to the earbuds.
- When the earbuds are disconnected from your device for more than 10 minutes, they will turn off automatically.

Couple Earbuds Mode

1. Uncover the lid to turn on the earbuds, they will connect with each other automatically. Once connected, The LED indicators on both earbuds will flash blue and white alternately indicating the earbuds are in pairing mode now.
2. Turn on the Bluetooth function on your device and search for nearby devices. Find "iTeknic IK-BH006" in the searching results, tap on the name to connect.
3. Once connected, the LED indicators on both earbuds will flash blue slowly.

Note:

- We recommend you to take out the earbuds from the charging case only when the earbuds complete automatic pairing in the charging case.
- If the earbuds failed to pair with each other, please disconnect the Bluetooth connection with your device, put them back into the charging case, close the lid then open it to pair again.
- It is not recommended to wear the two earbuds on different people. If needed, please keep the 2 earbuds within 3 meters / 9.8 feet in couple earbuds mode.

Single Earbud Mode

1. Take out one earbud from the charging case, and make sure the other one is placed in the charging case and the lid is covered.
2. It will try to pair with the last paired device first then enter pairing mode with its LED indicator flashing blue and white alternately if pairing failed.
3. Turn on the Bluetooth function on your device and search for nearby devices. Find "iTeknic IK-BH006" in the searching results, tap on the name to connect.
4. Once connected, the LED indicator will flash blue slowly.

Note:

If you want to change to couple mode, simply take out the other earbud from the charging case, they will pair with each other automatically.

Clear Pairing List

If you failed to pair your device with the earbuds, please clear the pairing history as instructed below:

1. Put the earbuds back into the charging case, close the lid then open it to turn on the earbuds, press and hold the Multifunction Touch Control of the left earbud for 10 seconds until the LED indicator on the right earbud flash white three times to enter reset mode, and the two earbuds will pair with each other automatically.
2. Pair them with your device when the LED indicators on both earbuds flashes blue and white alternately indicating the earbuds are in pairing mode now.
3. If you have paired your device with the earbuds before, remove "iTeknic IK-BH006" from the Bluetooth device list and pair again.

Note:

If you want to pair the earbuds with another device when you have already paired them with a device, deactivate the Bluetooth function on the paired device or clear "iTeknic IK-BH006" from its Bluetooth list. Restore the earbuds to factory settings as instructed above if pairing failed.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

WEEE Compliance

Correct Disposal of This Product (Waste Electrical & Electronic Equipment)
(Applicable in countries with separate collection systems)

This marking on the product, accessories or literature indicates that the product and its electronic accessories should not be disposed of with other household waste at the end of their working life. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate these items from other types of waste and recycle them responsibly to promote the sustainable reuse of material resources. Household users should contact either the retailer where they purchased this product, or their local government office, for details of where and how they can take these items for environmentally safe recycling. Business users should contact their supplier and check the terms and conditions of the purchase contract. This product and its electronic accessories should not be mixed with other commercial wastes for disposal.
