

Airborne antenna specification

1、 Detailed size specification of onboard antenna:

2、characteristic

Ultra-small size: 2.8*9.95mm

50 ohm impedance

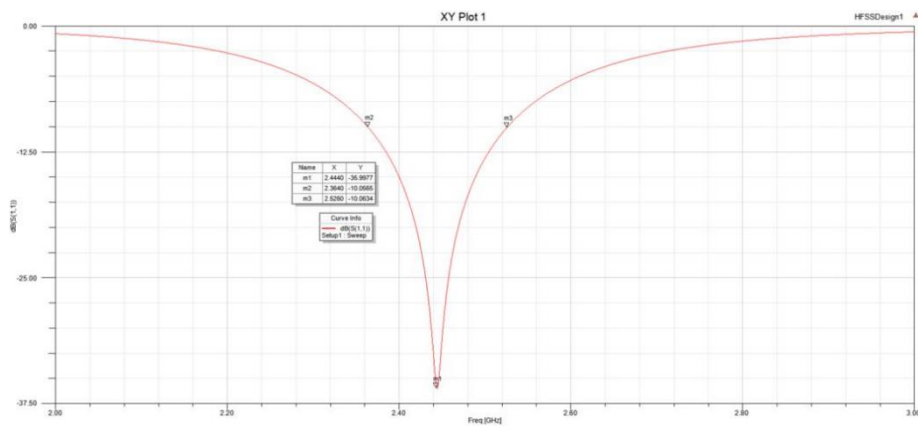

Maximum gain: 2.08dBi

Working in the 2.4GHz band.

3、Antenna s parameter

10dB working bandwidth: 156MHz

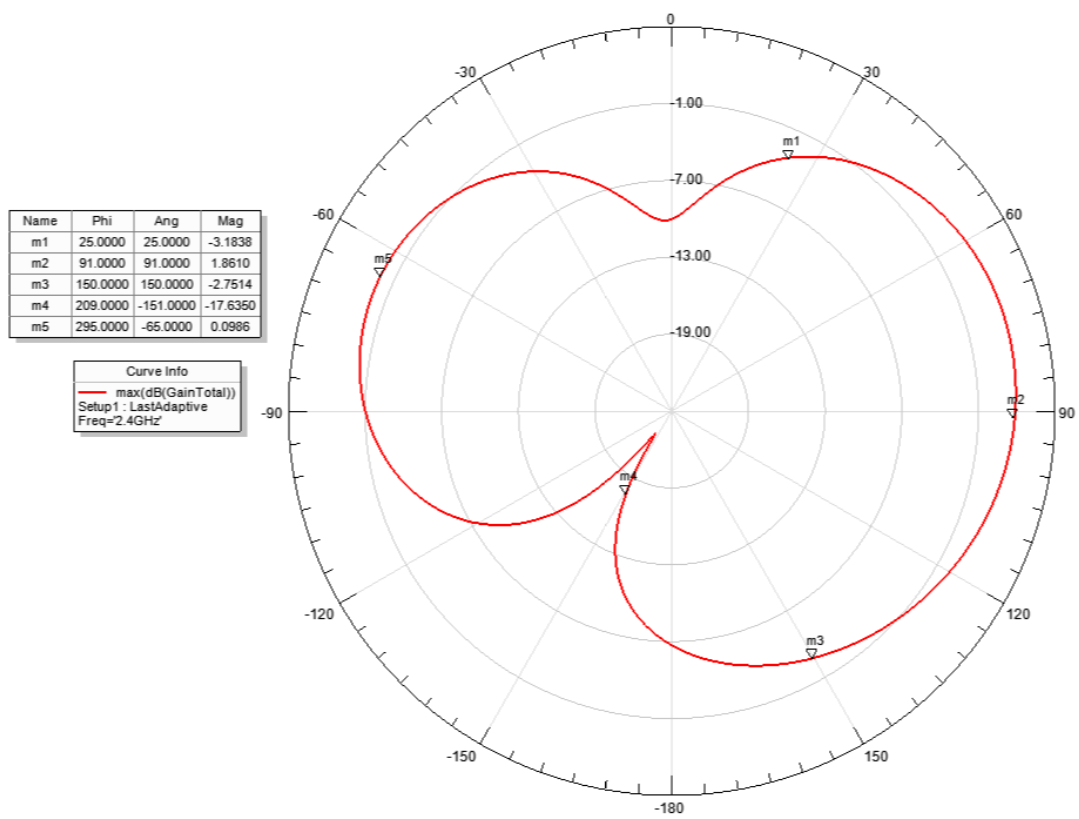

Central frequency band S11:-36dB @ 2.44GHz.

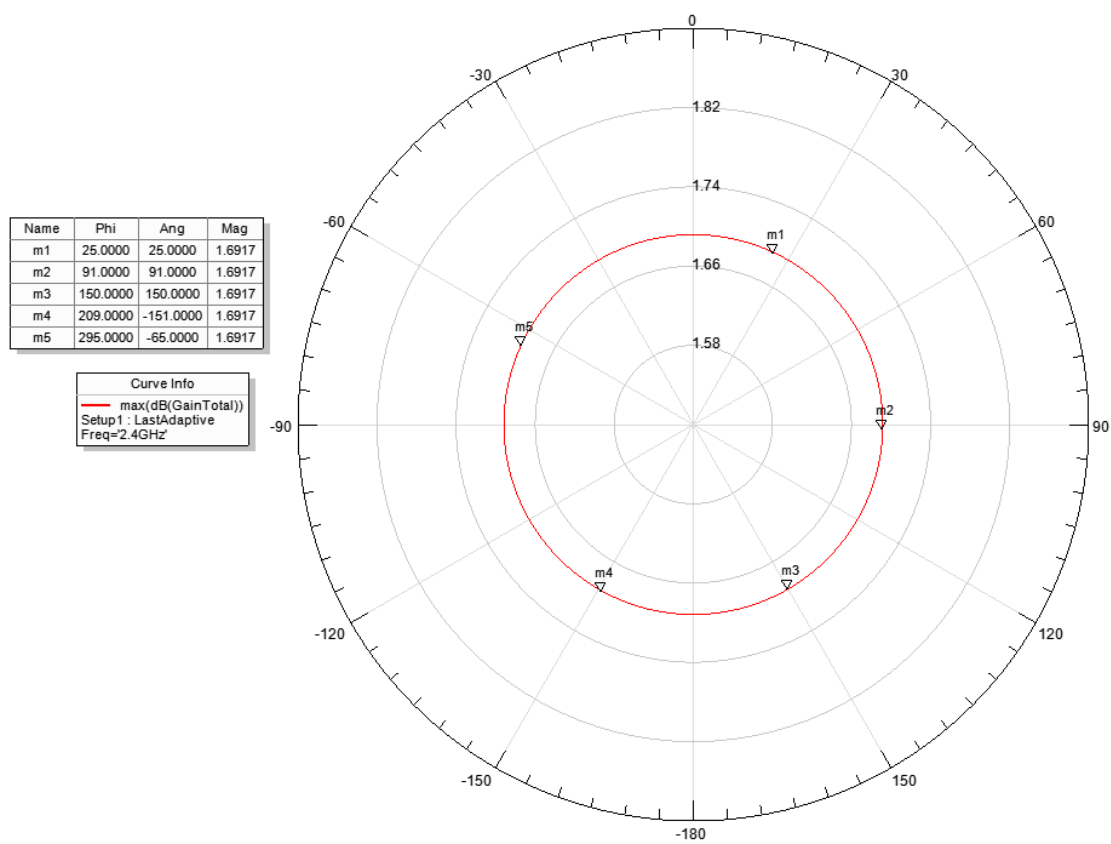

4. Antenna gain

2.4GHz: maximum gain of 1.86dBi
