Important Safety Precautions

When using your charger, basic safety precautions should always be followed, including the following:

1. READ ALL INSTRUCTIONS BEFORE USING YOUR CHARGER.
2. Never expose your charger to high temperatures, extreme cold, high humidity or any moisture or water.
3. In order to avoid the risk of electric shock, never attempt to open your charger or repair it without the assistance of certified professionals.
4. Your charger is not to be used by children or the infirm without suitable adult supervision.
5. When your smartphone is fully charged, remove it from your charger.
6. Do not use your charger at temperatures under 40°F (5°C) or over 95°F (35°C).
7. Do not drop your charger, throw it, or subject it to strong impacts or physical trauma.
8. If you detect any abnormalities when using your charger, contact the manufacturer for support.
9. When charging, do not place your charger on flammable materials such as rugs, carpets or bedding.
10. Do not place any metallic items other than compatible smartphones on the surface of your charger.
11. Only place Qi compatible phones on the surface of your charger. The use of incompatible phones can cause your charger to overheat.
12. Your charger may cause interference to radio equipment and should not be installed near maritime safety communications equipment or other critical navigation, communication or medical equipment.
13. Please recycle or dispose of your power pack properly based on the laws and rules of your municipality. Contact local recycling facilities and/or the manufacturer of your power pack for further information.

A Quick Look at Your Device

Plugging In Your Charger

1. The included charging cable has a Micro USB plug and a standard plug.

2. Insert the charging cable's standard plug into a suitable wall outlet in your home.

3. Insert the charging cable's Micro USB plug into the charging port on your charger.

Using Your Charger

1. Place your Qi compatible smartphone on the charging surface of your charger. For best results, make sure that your phone is as close to the center of the charging surface as possible.

-Your charger can only be used to charge one Qi compatible smartphone at once. Do not attempt to charge multiple phones at the same time.

-Make sure that your phone's ringer is not in vibrate mode and that **all** other vibration functions are disabled while your phone is charging. Any vibrations can cause your phone to move around, disrupting its connection to the charger.

Using Your Charger (continued)

2. The Charging Indicator Light turns blue as your phone is charging. Look at your phone's display screen to see the charging progress. Remove your phone from the charging surface once charging is complete.

*OTP Protection: The OTP function (over temperature protection) reduces output and will eventually shut off your charger to prevent overheating.

IMPORTANT WARNING

Do not use to charge any phones that have a metal body, or phone cases that contain any metal parts, metal pieces or magnets. Doing so can increase the risk of fire, serious malfunction or damage to your phone.

NO METAL/NO MAGNETS

FCC Statement

NOTE: This equipment has been tested and found to comply with the limits for a wireless power charger, pursuant to Part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
