Dear Sir or Madam:

We, Xiamen Ursalink Technology Co., Ltd. hereby declare that product: Industrial Cellular Router ,FCC ID:2AOSV-UR52-5, model: UR52 is electrically identical with the same electromagnetic emissions and electromagnetic compatibility characteristics as model name: UR55 that was tested by BACL, the results of which are featured in BACL project.

A description of the differences between the tested model and those that are declared similar are as follows:

The UR55,UR52 have same software.

Their hardware differences: The hardware principle of UR55 and UR52 is only different in the network port. The UR55 has 5 network ports, and the UR52 has only 2. The other hardware circuits are exactly the same.Layout part, the position of the network port of UR55 and UR52, the position of the GPS circuit on the top layer, and the position of the RTC circuit on the bottom layer are slightly different,These subtle differences have no effect on RF characteristics.The positions of other circuit devices are the same.

Please contact me should there be need for any additional clarification or information.

Best Regards,
