The button recorder in the CONTROLLAR can support recording in 48KHz and MP3 format. TF card is necessary and needed to be purchased separately. The CONTROLLAR supports the maximum 32G card for storing about 500-hour record.

1) Insert the TF card into the slot of the CONTROLLAR.

2) Switch to the Recorder mode, and the green light will flash for one time.

3) Click the Record button to start the record. The red light will flash slowly during the record and it will flash rapidly when the TF card is short or damaged.

4) Click the Record button again to save the file automatically when the record is finished.

5) The record will be paused and the red light will flash rapidly when the TF card is full.

2.5 Audio Player
The button flash driver in the CONTROLLAR can play the audio file in MP3/WAV format, and support two optional playing modes of speaker or headphone.

1) Insert the TF card into the slot of the Controller.

2.6 Function 5: Flash Drive
The button flash driver in the CONTROLLAR needs a TF card (purchase separately) to be a U disk, that supports Maximum 32G data storage.

1) Insert the TF card into the slot of the CONTROLLAR.

2) Then Connect the CONTROLLAR to a computer by a USB cable, then you will get it use.

3) Click the Power/Reset button, and the device will flash rapidly when the TF card is short or damaged.

2.7 Function 6: Remote Control
CONTROLLAR has 5-in-1 functions as Remote-Control: Presenter, Laser Pointer, Voice Recorder, Power Bank, Flash drive. Please choose the working mode before using according to your guidance.

1) Switch the function of Power Bank and 100mAh, the Side Switch can't be in any position except "OFF".

2) Turning the switch to the OFF position for shutting down.

3) When the CONTROLLAR doesn't work in any mode for more than 1 hour, it will go to sleep. Switch the Side Switch to wake up.

2.8 Function 7: Power Bank
The button 1500mAh battery pack is not only for supplying power for the functions of CONTROLLAR, but also for an emergency power bank.

1) Do not put the CONTROLLAR into water, fire or high temperature environment.

2) Please stop using the CONTROLLAR if it abnormal heat, leakage and bulging.

3) The CONTROLLAR is a level 1 user product. As the laser is harmful to eyes, do not look directly at the laser beam.

4) Please place the CONTROLLAR out of the reach of children or pets. Children are prohibited from playing with the CONTROLLAR.

5) The CONTROLLAR contains a lithium-ion battery, please comply with local regulations on an acid or alkali battery.

6) The CONTROLLAR is a level 1 user product. As the laser is harmful to eyes, do not look directly at the laser beam.

2.9 Function 8: Remote Control and Laser Pointer
The button flash driver in the CONTROLLAR is compatible with most operating systems for handheld set up. It provides 3-in-1 functions: remote control and 100-mW laser pointer function.

1) Turn the laser pointer to be on when the button is pressed and will be off when the button is released.

2) Click the Side Switch to the Presenter mode.
