MAGNETIC WIRELESS CHARGING

- Ensure powerbank is charged.
- Place your MagSafe compatible device on the magnetic wireless charging pad of the power bank. LED indicator will light up and charging will begin automatically

CHARGING WITH IN-BUILT CABLES

Built-In Cables:
Take out the cable head from the power bank, and plug into device that needs to be charged. Charging will start automatically once plugged in.

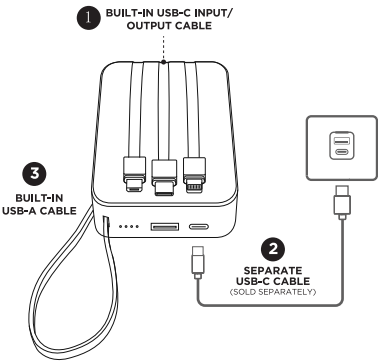

OUTSIDE FACE

90mm

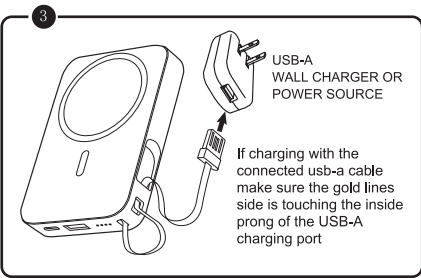

CHARGE THE POWER BANK

For best results fully charge the power bank before first use.

3 WAYS TO CHARGE YOUR POWERPANK

- 1 Use the built-in USB-A or USB-C Charging cable and connect to a USB power source (sold separately)
OR
2 Connect the charger to a power source.

CHECK THE BATTERY LEVEL

The indicator lights (4) shows the current battery level of the power bank. Plug in any of the cables to check the power level. If none of the lights turn on, please charge the power bank.

Power Indicator	One light on	Two lights on	Three lights on	Four lights on
Battery Status	≤25%	25%~50%	50%~75%	75%~100%

COMPATIBILITY

iPhone 12 & newer, and other wireless charging devices, and other USB accessories

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
NOTE: This equipment has been tested and found to comply with the limits for a wireless power charger, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment o and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

CAUTION: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

WARNINGS

- If this device is not used for a long time, please charge it at least every 3 months.
- It might produce light heat during charging, which is normal as long as it's below 55°C (131°F).
- Always keep this device dry and do not clean it with chemical agents.
- Go green and recycle this device at designated place.
- Children must use it under adult supervision.
- Do not crush, disassemble, impale or put this device into water.
- Do not use it to charge devices with non compatible current and voltage, which will cause fire or other problems.

PACKAGE INCLUDES:

- (1) Portable Power
(1) User Manual
