

➤ USING THE Bluebeep Car Seat GUARDIAN® system

- When you first install Bluebeep Car Seat GUARDIAN® on a baby car seat, initialize it in accordance with the Bluebeep Guardian Application User Guide. www.blue-beep.com.

Bluebeep Car Seat GUARDIAN® is designed to go into sleep mode if no event nor child presence are detected. To wake it up, see it on your smartphone, and activate the monitoring, you should slightly shake the baby car seat or simply the harness on which it is mounted. This awakening is performed naturally at the child's installation.

After leaving the vehicle and being far away (about 80 feet), the application Bluebeep GUARDIAN will sound a reminder alerting you if the baby is still in the vehicle. This reminder is accompanied by the sending of SMS and Email messages to the addresses you have entered.

When using on an aircraft : remove the Bluebeep Car Seat GUARDIAN® battery.

To comply with the FAA Electronic Device Regulations, the battery must be removed before take-off.

Note: After landing, put the battery back in place.

CAUTION : the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE : this equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. this equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct interference by one or more of the following measures :

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by industry Canada. to reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

This device complies with FCC and Industry Canada radiation exposure limits set forth for general population. This device must not be co-located or operating in conjunction with any other antenna or transmitter.

LIMITED WARRANTY

Bluebeep warrants this product (including accessories) to the original user ("Buyer") to be free from defects in materials or manufacture for a period of 1 year from the date of original purchase of this product or, as the case may be, over the legal period of the national regulations. The sole responsibility of Bluebeep under the terms of this limited express warranty is to repair or replace, at its discretion, any product that will be deemed to be defective and that will be determined by Bluebeep to be covered under the terms of this guarantee.

Repair or replacement under the terms of this warranty is the sole remedy of the buyer. Proof of Purchase in the form of an invoice or contract of sale, proving that the Product is still under the warranty period, shall be provided to obtain warranty service. This limited express warranty is granted EXCLUSIVELY by Bluebeep to the original purchaser of this Product and cannot be assigned or transferred to subsequent purchasers or users of this product. For warranty service, contact your dealer or log on to www.blue-beep.com.

Except to the extent prohibited by applicable law, any implied warranty of merchantability or fitness for a particular purpose of this product is totally excluded. Bluebeep will not be responsible for any incidental, indirect, special, or consequential damages or punitive damages of any kind for breach of the express limited warranty on this product, or any warranty implied by operation of the law. Other than the express limited warranty set forth above, there are no other warranties that accompany this product and any oral, written or any other express representation of any kind is hereby disclaimed.

Car Seat GUARDIAN®

➔ INSTALLATION INSTRUCTIONS

➤ GENERAL INFORMATION Bluebeep Car Seat GUARDIAN®

Initialize your Bluebeep Car Seat GUARDIAN® according to the application's user guide Bluebeep Guardian.

Attach the child to the harness restraint in accordance with the child's supplier of baby car seat. In the event that no smartphone is connected to the module, if it is equipped with a buzzer, **Bluebeep Car Seat GUARDIAN®** will emit a series of short beeps when you install the child. This signal is only audible once after the child is installed. **Bluebeep Car Seat GUARDIAN®** will then be ready to inform you continuously.

Use of batteries :

- **Bluebeep Car Seat GUARDIAN®** is powered by a non-supplied CR2450 lithium button battery that cannot be recharged. The **Bluebeep Guardian** application informs you about the state of the battery. As soon as the worn battery icon appears, you will have to replace it.
- The useful life of the battery under normal conditions of use is estimated to be about 1 year.

FCC Certified - Model: Car Seat Guardian®, FCC ID:2A0V7-CS0001

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any other interference received, including interference that may cause undesired operation. Changes or modifications to this unit without the approval of the third party responsible for compliance may cancel the authorization of the user to use this equipment.

Certified by Industry Canada (IC) - Model: Car Seat Guardian®, IC:23639-CS0001

This device complies with Industry Canada's non-licensing RSS standards.

Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any other interference, including interference that may cause undesired operation not wanted.

➤ WARNINGS

- 1- Do not ingest battery, risk of chemical burn.
- 2- This product contains a battery. If swallowed, the battery may cause severe internal burns in just 2 hours, which can be fatal.
- 3- Keep new and used batteries out of the reach of children. If the battery compartment does not close securely, do not use the product and keep it out of the reach of children. In case of suspected ingestion of an accumulator or introduction into any part of the body, immediately seek medical advice.
- 4- CAUTION RISK OF EXPLOSION IF THE BATTERY IS REPLACED BY A TYPE BATTERY INCORRECT. DISPOSE OF USED BATTERIES IN ACCORDANCE WITH THESE INSTRUCTIONS.

PIECES PROVIDED :

ELECTRONIC MODULE :

STRAP :

- 1 Top Hooks
- 2 Ring
- 3 Battery cover
- 4 Bottom Hooks
- 5 Strap
- 6 Strap blocker

IF YOUR SEAT IS EQUIPPED WITH A SHOULDER PAD, VERIFY THAT THE SHOULDER PAD IS SUFFICIENTLY WIDE (APPROXIMATELY 2 INCHES) TO PERMIT THE POSITIONING OF THE BLUEBEEP CAR SEAT GUARDIAN® MODULE INSIDE THE SHOULDER PAD.

➤ INSTALLATION OF Bluebeep Car Seat GUARDIAN®

- A** • Open the battery cover by turning it counterclockwise.
 - Place the CR 2450 battery, the ⊕ above.
 - Close the battery cover.
- B** • Pinch the harness shoulder strap into the top and bottom hooks.
 - Position the module over the shoulder strap with the battery cover facing forward, Ring upwards.
- C** • Insert the module into the shoulder pad, as close as possible to the backrest.
 - Ensure the distance from the module to the seat back :
- D** - if the shoulder guard is sewn: form a loop around the shoulder strap by passing the strap provided in the module ring.
- E** - if the shoulder guard is sliding or non-existent: place the supplied strap blocker in the strap of the module, then form a loop with this strap by passing it through the ring of the module. Module, then pass the strap blocker in the strap passage of the backrest.

➤ FINAL TEST:

- Avoid any metal parts near (2 inches) from Bluebeep Car Seat GUARDIAN® which could distort the information transmitted.
- Check the mounting direction of the battery.
- Ensure that Bluebeep Car Seat GUARDIAN® is properly positioned in the shoulder guard, and close to the back of the baby car seat.
- Make sure the harness straps are not twisted.
- In accordance with the recommendations of the baby car seat supplier, pull the harness to make sure it is well tight and secured, and does not detach.
- Check that the Bluebeep Car Seat GUARDIAN® module does not fit into the back of the seat.
