4K OTT BOX

Quick Reference Guide

Please read the user manual before operating the TV box

Safety Instructions

WARNING!

- Presence of live parts inside the device! Do not open. Risk of electric shock!
- No parts should be repaired by users.
- Place the device on a flat, firm and stable surface. Do not put it on a carpet or rug.
- Place the device in a well-ventilated location to prevent the accumulation of internal heat.
- Protect the device from high temperatures, humidity, water and dust.
- Do not place any objects near your device that may damage it (e.g. liquid-filled objects or candles).
- Do not mix old and new batteries and do not mix alkaline, standard (carbon-zinc) or rechargeable (Ni-Cd, Ni-MH, etc.) batteries.

Accessory List

Please open the package and check the following accessories:

TV Box x1

Remote Control x1

Power Adapter x1

HDMI Cable x1

LAN Cable x1

User Manual x1

System Connection

Please refer to below instructions to connect TV, Power, Network and other devices.

Note: Please turn off all equipment before connecting (such as TV Box and TV power.)

Step 1: Connection with TV

Connect HDMI / AV port of the TV box and TV set

Step 2: Connection with Power

Connect the power adapter to the TV box. After power is on, it can start automatically.

Step 3: Set up your device

Follow the on-screen to set up your device.

Step 4: Connection with network

The TV box supports both Ethernet and Wi-Fi connections.

- Ethernet: Use the Ethernet cable to connect the LAN port of the TV box and the port of the home broadband network.
- Wi-Fi: Select your Wi-Fi network & key in the password.

Note: Press the Google Assistant button to start voice search for what you want.

Troubleshooting

No display after power on?
Confirm your device is connected to the TV well and set the correct HDMI Input from your TV configuration.

TV has images but no sound?
Make sure your TV is not in mute and low volume.

Fail to connect to the network?
Make sure the Ethernet cable is properly connected. Make sure Wi-Fi is functional and your box has a strong enough signal from your router.

Remote control failure?
• Replace the battery of the remote control with a new one, and make sure it is placed in the correct polarity.
• Make sure the remote control is within the range of the TV box.
• Go to the Settings menu to unpair and re-pair the remote control.

Please use our accessories to avoid any risk.

Product details

Product Name: MOVE_SEIDOOTKSB
Model Name: MOVE OTT-Box 4

Manufacturer
Shenzhen SEI Robotics Co., Ltd.
Add.: 11th Floor, Kangtai Group Building, No. 222 Kefa Road, Science and Technology Park Community,
Yuehai Street, Nanshan District, Shenzhen, China

Frequency range
Bluetooth technology uses the 2.4 GHz ISM spectrum band (2400MHz to 2483.5MHz)
Operation Frequency band:
Bluetooth: 2400MHz ~ 2483.5MHz
2.4GHz WIFI : 2400MHz ~ 2483.5MHz
5GHz WIFI : 5150MHz ~ 5850MHz

This device complies with relevant RF radiation exposure limits when positioned at least 20 cm away from your body.

The WLAN function for this device is restricted to indoor use only when operating in the 5150 to 5350MHz frequency range.

This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE). This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

User has the choice to give his product to a competent recycling organization or to the retailer when he buy a new electrical or electronic equipment.

Declaration of Conformity

Hereby, Shenzhen SEI Robotics Co., Ltd. declares that the radio equipment type Product name is in compliance with Directive 2014/53/EU Declaration of Conformity is available upon request. The full text of the EU declaration of conformity is available at the following internet address: <https://move.tv/doc/seirobotics/ced.pdf>

FCC statement:

This device complies with part 15 of the FCC rules and RSS-247 of Industry Canada. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help
- This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

RF exposure statement:

This equipment complies with FCC and IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance of 20 cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

OR/ This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

IC regulatory conformance:

This device complies with CAN ICES-003 (B)/NMB-003(B) and CAN RSS-216 / CNR-216[1]. This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Compliance

Caution!

Risks of explosion if the battery is replaced by an incorrect type:
• Replacement of a battery with an incorrect type that can defeat a safeguard (for example, in the case of some lithium battery types)
• Disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a battery, that can result in an explosion.
• Leaving a battery in an extremely high temperature surrounding environment that can result in an explosion or the leakage of flammable liquid or gas.
• A battery subjected to extremely low air pressure that may result in an explosion or the leakage of flammable liquid or gas.

"Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits."

Operating Temperature: 0°C ~40° C
