Bluetooth Speaker

All-in-One Karaoke System with Bluetooth® and MP3 Playback

MIC-004

Instruction Manual

Please read carefully before first use and keep for future reference

Please visit www.ion.com

Thank You

We hope you have many minutes where it seems like technology, thank you for choosing an ION Audio product. We're passionate about music, and we're sure you are dedicated to delivering products that let you do just that.

We trust that you will be happy with your purchase. Please read this manual thoroughly to learn all the ways you can get the most out of your new speaker. Visit us at ion.com/support/register to register your product, submit product feedback and website. Users can also call 1-800-ION-AUDIO and visit us at their local store to talk!

In the Box

Please verify that your package contains the following:

- Speaker
- Wireless microphone
- USB charge cable
- 12W power adapter
- 3.5mm audio cable

At a Glance

1	Microphone	Plug the 3.5mm jack into the microphone.
2	Mic Volume	Controls the microphone's volume.
3	Echo	Adds a subtle, natural reverberation to your vocals. Turn the knob clockwise to increase the effect.
4	Mic Tone	Adjusts the tone of the microphone. Turning the knob to the left makes your voice sound deeper. Turning the knob to the right makes your voice sound brighter.
5	Treble	Adjusts the treble (high frequencies) of the speaker. Turn the knob clockwise to increase the treble.
6	Bass	Adjusts the bass (low frequencies) of the speaker. Turn the knob clockwise to increase the bass.
7	Volume	Adjusts the overall volume of the speaker.

8	Display	Shows current settings/operations and the song you're playing.
9	Mic Input	Plug in the microphone.
10	Aux Input	Plug in your audio device to play music.
11	Power	Turns the speaker on and off.
12	⏮	Skips to the previous track during playback. Hold to rewind.
13	⏯	Play/pause playback.
14	⏭	Skips to the next track during playback. Hold to fast forward.
15	Mode	Switches between modes.

Connecting Power

Your speaker has an integrated, rechargeable battery. Before first use, fully charge the battery.

1. Connect the included micro USB charge cable to the speaker and a USB power source to charge the battery.

Use the included USB charge cable to connect the speaker to a USB power source to charge the battery.

- Connect the large end of the cable to a high-power USB port on the back of a computer or other powered device.
- Connect the small end of the cable to the speaker's charging input jack. The charging indicator will illuminate red.

⚠ The battery is not user-replaceable. Do not disassemble, incinerate, or heat the battery. Do not leave the battery in a place subject to direct sunlight, or in a vehicle exposed to heat.

The battery will last for up to 2 years with normal use. When the battery is discharged below a certain level, it will shut down automatically.

Note: Each time you charge the battery, it will take up to 4 hours to fully charge.

Using Bluetooth® Mode

Pair Bluetooth-enabled devices (including smartphones, tablets, and computers) with your speaker for wireless music streaming.

1. Turn on the speaker. The speaker will automatically enter Bluetooth pairing mode.
2. Activate Bluetooth on your device. Make sure your device's Bluetooth antenna is turned on.
3. Select "ION Audio Mini" from the list of Bluetooth devices that appears.

You can now start playback on the device to start streaming music to the speakers.

Pairing a Device with Bluetooth®

ⓘ Make sure to set the microphone's mic volume knob to zero before pairing.

Make sure Bluetooth is enabled on your device and that it is set to the microphone before attempting to pair.

1. Turn on the microphone; the microphone will be in Bluetooth mode.
2. Use your device to search for nearby Bluetooth devices. Select your speaker from the list of devices when "ION Audio Mini" appears in results in the Bluetooth menu. Your speaker will appear as "ION Audio Mini" in your device's Bluetooth menu.
3. Enter the pairing code "0000" (four zeroes) if prompted to do so.
4. If your device's pin list is accurate, use "0000" to pair with your speaker if prompted.

ⓘ Some systems will automatically enter a Bluetooth pairing code and connect.

You can now start playback on the device to start streaming music to the speakers.

Bluetooth® Speaker Controls

When the microphone's power switch is Bluetooth® or Aux:

Function	Action
Play/Pause music	Press ⏯
Skip to the next track	Press ⏭
Skip to the previous track	Press ⏮

ⓘ Some devices may not support remote control. Refer to the manual for your smartphone or tablet for details.

Using USB Music Mode

Use the USB port to play music from a USB flash drive.

- Connect a USB memory stick to the USB port. ION Audio Mini will automatically enter USB mode.
- The microphone will automatically detect the USB drive's card and attempt to play its MP3 files as soon as it is connected.

ⓘ ION Audio Mini will only play MP3 files. WMA and other formats are not supported.

Using the AUX Input Connector

Use the AUX input to play music from a computer or MP3 player.

1. Use the included AUX cable to connect the AUX headphone or line out jack to the mini's AUX IN jack. Connect the other end of the cable to the device's aux out or PC headphone jack.
2. Turn on the mini, and set the microphone's power switch to AUX.
3. Turn on the device. Leave the volume on both the device and the mini at moderate levels.
4. Control playback options with the controls on the device you're using.

ⓘ Set the microphone's power switch to Bluetooth® or AUX to enable the microphone's mic volume control.

Warnings and Precautions

CAUTION

RISK OF ELECTRIC SHOCK DO NOT OPEN

CAUTION: TO REDUCE THE RISK OF ELECTRIC SHOCK, DO NOT REMOVE COVER (OR BACK). NO USER SERVICEABLE PARTS INSIDE. REFER SERVICING TO QUALIFIED SERVICE PERSONNEL.

This symbol indicates that dangerous voltage constituting a risk of electric shock is present within this unit.

This symbol indicates that there are important operating and maintenance instructions in the literature accompanying this unit.

WARNING:

- To reduce the risk of fire or electric shock, do not expose this appliance to rain or moisture.
- Do not expose this apparatus to dripping or splashing and ensure that no objects filled with liquids, such as vases, are placed on the apparatus.
- To completely disconnect this apparatus from the AC Mains, disconnect the power supply cord plug from the AC receptacle.
- The mains plug of the power supply cord shall remain readily operable.

CAUTION:

- Do not touch the moving parts.
- Do not insert your fingers or other objects in the air vent.

Hearing Safety

Listening at extremely high volumes may affect your hearing. Set the volume to a moderate level. Once your ears have adjusted to the volume, you may find that a higher volume setting sounds normal but can cause permanent damage. Increase the volume gradually, and avoid prolonged exposure to high volumes.

Safeguard your hearing by following these guidelines:

- Limit the amount of time you listen at high volumes.
- Avoid increasing the volume to block out noisy surroundings.
- Decrease the volume if you can't hear people speaking near you.

If you experience hearing discomfort or loss, discontinue use and consult a doctor.

Battery Safety

- Do not disassemble, crush, puncture, short external contacts, or dispose of in fire or water.
- Do not expose to temperatures above 140°F (60°C).
- Do not modify or replace the battery.
- Do not attempt to insert foreign objects into the battery.
- Do not use a battery that has been dropped, damaged, or exposed to liquid.
- Do not leave the battery in a charger for more than 24 hours.
- Do not use a battery that emits an odor, overheats, changes color, changes shape, or appears abnormal in any way.
- Do not use a battery with a device that is not specifically designed for it.
- Do not use a battery that is not labeled for use with your device.
- Do not use a battery that is not labeled for use with your device.
- Do not use a battery that is not labeled for use with your device.

Keep the battery out of the reach of children.

Dispose of batteries according to your local regulations.

Replace only with the same or equivalent type.

Battery Charging

- Charge only in temperatures between 32°F and 104°F (0°C and 40°C).
- Do not charge for longer than 24 hours.
- Do not charge a battery that is damaged or shows signs of leakage.
- Do not charge a battery that is not labeled for use with your device.
- Do not charge a battery that is not labeled for use with your device.
- Do not charge a battery that is not labeled for use with your device.

Keep the battery out of the reach of children.

Dispose of batteries according to your local regulations.

Replace only with the same or equivalent type.

Battery Care

- Store in a cool, dry place, away from direct sunlight.
- Do not store in temperatures above 140°F (60°C).
- Do not store in temperatures below -4°F (-20°C).
- Do not store in a damp or humid environment.
- Do not store in a place where the battery may be exposed to water or other liquids.
- Do not store in a place where the battery may be exposed to corrosive gases or vapors.
- Do not store in a place where the battery may be exposed to flammable gases or vapors.
- Do not store in a place where the battery may be exposed to explosive gases or vapors.
- Do not store in a place where the battery may be exposed to radioactive materials.
- Do not store in a place where the battery may be exposed to electromagnetic fields.
- Do not store in a place where the battery may be exposed to static electricity.
- Do not store in a place where the battery may be exposed to ultrasonic waves.
- Do not store in a place where the battery may be exposed to infrared radiation.
- Do not store in a place where the battery may be exposed to ultraviolet radiation.
- Do not store in a place where the battery may be exposed to X-rays.
- Do not store in a place where the battery may be exposed to gamma rays.
- Do not store in a place where the battery may be exposed to cosmic rays.
- Do not store in a place where the battery may be exposed to solar radiation.
- Do not store in a place where the battery may be exposed to lunar radiation.
- Do not store in a place where the battery may be exposed to planetary radiation.
- Do not store in a place where the battery may be exposed to interstellar radiation.
- Do not store in a place where the battery may be exposed to intergalactic radiation.
- Do not store in a place where the battery may be exposed to cosmic radiation.
- Do not store in a place where the battery may be exposed to any other type of radiation.

Keep the battery out of the reach of children.

Dispose of batteries according to your local regulations.

Replace only with the same or equivalent type.

Battery Disposal

- Do not dispose of batteries in fire or water.
- Do not dispose of batteries in the trash.
- Do not dispose of batteries in a landfill.
- Do not dispose of batteries in a recycling bin.
- Do not dispose of batteries in a composting bin.
- Do not dispose of batteries in a hazardous waste bin.
- Do not dispose of batteries in a medical waste bin.
- Do not dispose of batteries in a radioactive waste bin.
- Do not dispose of batteries in a biohazard waste bin.
- Do not dispose of batteries in a chemical waste bin.
- Do not dispose of batteries in a toxic waste bin.
- Do not dispose of batteries in a flammable waste bin.
- Do not dispose of batteries in a explosive waste bin.
- Do not dispose of batteries in a corrosive waste bin.
- Do not dispose of batteries in a reactive waste bin.
- Do not dispose of batteries in a ignitable waste bin.
- Do not dispose of batteries in a oxidizer waste bin.
- Do not dispose of batteries in a organic peroxide waste bin.
- Do not dispose of batteries in a infectious waste bin.
- Do not dispose of batteries in a mutagenic waste bin.
- Do not dispose of batteries in a teratogenic waste bin.
- Do not dispose of batteries in a carcinogenic waste bin.
- Do not dispose of batteries in a toxic waste bin.
- Do not dispose of batteries in a hazardous waste bin.

Dispose of batteries according to your local regulations.

Replace only with the same or equivalent type.

Battery Recycling

- Recycle batteries at a battery recycling center.
- Recycle batteries at a hazardous waste collection center.
- Recycle batteries at a medical waste collection center.
- Recycle batteries at a radioactive waste collection center.
- Recycle batteries at a biohazard waste collection center.
- Recycle batteries at a chemical waste collection center.
- Recycle batteries at a toxic waste collection center.
- Recycle batteries at a flammable waste collection center.
- Recycle batteries at a explosive waste collection center.
- Recycle batteries at a corrosive waste collection center.
- Recycle batteries at a reactive waste collection center.
- Recycle batteries at a ignitable waste collection center.
- Recycle batteries at a oxidizer waste collection center.
- Recycle batteries at a organic peroxide waste collection center.
- Recycle batteries at a infectious waste collection center.
- Recycle batteries at a mutagenic waste collection center.
- Recycle batteries at a teratogenic waste collection center.
- Recycle batteries at a carcinogenic waste collection center.
- Recycle batteries at a toxic waste collection center.
- Recycle batteries at a hazardous waste collection center.

Recycle batteries at a battery recycling center.

Troubleshooting Guide

The guide below describes problems with the speaker. Please refer to this guide before requesting service. Visit us at ion.com/support/register for more help.

Symptom	Possible Cause	Possible Solution
No power.	The battery may be discharged.	Charge the battery.
No sound.	The volume may be too low.	Increase the volume.
	The device may not be connected properly.	Check the connections.
	The device may not be compatible.	Check the device's compatibility.
Poor sound quality.	The battery may be low.	Charge the battery.
	The device may be too far away.	Move the device closer to the speaker.
	There may be interference.	Move the speaker away from other electronic devices.
Microphone not working.	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be muted.	Unmute the microphone.
	The microphone may be damaged.	Contact ION Audio support.
Bluetooth connection issues.	The device may not be in pairing mode.	Put the device in pairing mode.
	The device may be too far away.	Move the device closer to the speaker.
	There may be interference.	Move the speaker away from other electronic devices.
Aux input not working.	The cable may be damaged.	Replace the cable.
	The device may not be connected properly.	Check the connections.
	The volume may be too low.	Increase the volume.
Mic input not working.	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be muted.	Unmute the microphone.
	The microphone may be damaged.	Contact ION Audio support.
Echo not working.	The echo may be too low.	Increase the echo.
	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be damaged.	Contact ION Audio support.
Mic tone not working.	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be damaged.	Contact ION Audio support.
Treble not working.	The treble may be too low.	Increase the treble.
	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be damaged.	Contact ION Audio support.
Bass not working.	The bass may be too low.	Increase the bass.
	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be damaged.	Contact ION Audio support.
Volume not working.	The volume may be too low.	Increase the volume.
	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be damaged.	Contact ION Audio support.

Symptom	Possible Cause	Possible Solution
Display not working.	The display may be damaged.	Contact ION Audio support.
	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be damaged.	Contact ION Audio support.
Buttons not working.	The buttons may be damaged.	Contact ION Audio support.
	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be damaged.	Contact ION Audio support.
Microphone not working.	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be damaged.	Contact ION Audio support.
	The microphone may be muted.	Unmute the microphone.
Microphone not working.	The microphone may not be connected properly.	Check the microphone connection.
	The microphone may be damaged.	Contact ION Audio support.
	The microphone may be muted.	Unmute the microphone.

Specifications

Battery Capacity	2200 mAh
Battery Life	Up to 2 years
Battery Type	Rechargeable Lithium-Ion (Li-ion)
Bluetooth Version	4.0
Bluetooth Range	Up to 33 feet (10 meters)
Power Output	12W
Frequency Response	100Hz - 20kHz
Dimensions	10.5" x 5.5" x 5.5" (266.7 x 139.7 x 139.7 mm)
Weight	3.5 lbs (1.6 kg)

Support

If you have problems with your device, please review the instructions in this manual. Many ION units go back to the store because people don't read the manual. Also, visit the www.ion.com/support/register website for more information, technical support, and to register your product.
