YYK-Q82 Bluetooth headset V6.1+EDR FCC ID: 2A0ZM-YYK-Q82 User Manual	Information to User This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: — Reorient or relocate the receiving antenna. — Increase the separation between the equipment and receiver. — Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. — Consult the dealer or an experienced radio/TV technician for help. This device has been evaluated to meet general RF exposure requirements. The device can be used in portable exposure condition without restriction.	1. Q&A 1. Why can't I search for earphones? a. The distance of bluetooth is 10m, please make sure there are no obstacles. Besides, the phone needs to be close to the earphones. b. If any other mobile phone or device has been connected to the earphone, please unpair it first. c. If the connection problem is not resolved, please try to restart the bluetooth device and the earphone. d. If you don't pair your device within five minutes after turning it on, it will automatically turn off. e. In the case of connecting to other smartphones, the earbud searches for the connected device by default, and needs to wait about 2 minutes before connecting to the new phone. 2. Why does the earphone turn off automatically? Please make sure the earphone are properly charged. Also, the earphone automatically shuts down after disconnected for three minutes. In this case, please put it back to the charging case or long press the MFB for 3 seconds to turn it on. 3. What should I do if there is no sound in my left or right earphone? 1. Clear all pairing records on your phone. 2. Take the earphones out of the charging compartment, make sure the earphones are not connected, double tap the earphones at the same time and press and hold for 2 seconds, the earphones will enter pairing mode.	3. Turn on your phone's Bluetooth and search for bluetooth devices. 4. Why can't I charge the earphones? 1. To ensure the safety of earphone transportation, the charging point comes with insulating film. You need to remove the insulating film for the first time. 2. It could be bad exposure. Press the earphone with your finger to make sure the charging contact points are fully connected to the charging case. 3. Please make sure that there is no problem with the charging cable or the charging adapter and the charging cable is inserted correctly. 4. The headset charging contact points may be covered with dust or sweat, please use a tissue or cloth to wipe. 5. If you hear the "Battery Low" voice, charge the earbuds. Please charge the case immediately when the LED display of the charging case below "10". Be careful not to run out the power of the earphone and charging case. It may shorten the life of the built-in lithium-ion batteries. 5. Intermittent sound when listening to music and making phone calls 1. Please make sure that your smartphone in good signal or good internet connection. 2. Make sure if your smartphone is connected to two audio devices at the same time. You can switch connections by pressing multifunction button twice.	3. The bluetooth communication distance is 10m. Please make sure there is no obstacle between earphones and the phone. Please put the smart phone and earphones close to use. 4. There could be too much ambient radio interference or strong magnetic field. These environments will affect bluetooth communication. 5. Try removing the pairing and reconnecting the headset in a different place. 6. Reset the earphone and restart the phone before reconnecting. 7. Warranty This YYK-Q82 earphones come with full 6-month limited warranty from the date of purchase (accessories are out of warranty). It will be out of warranty if damaged due to incorrect use or force majeure.
