

Solder Board-Component View 2	 A photograph showing a rectangular solder board component. The component is a thin, flat metal strip with a slightly irregular, brushed surface. It is positioned horizontally against a blue textured background. A vertical ruler on the left and a horizontal ruler at the bottom provide scale. The vertical ruler is marked in centimeters from 1 to 21. The horizontal ruler is marked in centimeters from 1 to 25.
Solder Board-Component View 3	 A photograph showing a green printed circuit board (PCB) component. The PCB is populated with various electronic components, including integrated circuits, capacitors, and resistors. It has a complex, irregular shape with several mounting points. The component is positioned against a blue textured background. A vertical ruler on the left and a horizontal ruler at the bottom provide scale. The vertical ruler is marked in centimeters from 1 to 11. The horizontal ruler is marked in centimeters from 1 to 13.

Solder Board-Component View 4	 A photograph of a green printed circuit board (PCB) component, labeled 'PL-0360K 20221116', positioned next to a metal ruler. The ruler shows measurements in both centimeters (0 to 13) and millimeters (0 to 12). The component is rectangular with several circular holes and solder points. It is placed on a blue textured background.
Solder Board-Component View 5	 A photograph of a small green PCB component with a red component attached, positioned next to a metal ruler. The ruler shows measurements in both centimeters (0 to 17) and millimeters (0 to 14). The component is connected to a coiled white ribbon cable. It is placed on a blue textured background.

Solder Board-Component View 6	 A photograph of a small green printed circuit board (PCB) component, identified as View 6. The component is rectangular and features a red micro-USB port on its left side. It is connected to a white flexible flat cable (FFC) that is coiled into a loop. The component is placed on a blue textured surface. Two rulers are visible for scale: a vertical one on the left showing millimeter markings from 1 to 13, and a horizontal one at the bottom showing centimeter markings from 1 to 15.
Solder Board-Component View 7	 A photograph of a small green printed circuit board (PCB) component, identified as View 7. The component is rectangular and features a silver USB-A port on its left side. It is placed on a blue textured surface. Two rulers are visible for scale: a vertical one on the left showing millimeter markings from 1 to 8, and a horizontal one at the bottom showing centimeter markings from 1 to 9.
