GETTING STARTED

Please read this user's manual carefully before using the product to make a correct use of all functions and know well about the system connection and usage. Please keep this manual in a safe place for future reference.

INTRODUCTION

This Bluetooth® earbuds will allow you to listen to your music wirelessly from your mobile phone, tablet or other Bluetooth® enabled device. It delivers powerful and clear sound. The built-in microphone will allow you to answer calls from mobile phone.

WARNING

Prolonged use of headphones at high volume may cause irreparable hearing loss. We strongly advise you to adjust your listening volume to a reasonable level. The higher the volume, the more you risk damaging your hearing quickly.

We also recommend you to use your headphones responsibly! It is dangerous or even illegal in some areas, to use earphones in situations that require your full attention, such as driving a car, motorcycle or bicycle, but also as a pedestrian when crossing the street, etc.

PRECAUTIONS

First thank you for buying XKDUN Bluetooth® earbuds. Please refer to this Users' Manual before use to use it properly. The contents stated herein may be modified from time to time for better service as the product properties and functions are changed without prior notice. For the sound

performances of the product, never use it in too cold, too hot, too dusty or humid places, especially:

- Moist or underwater conditions
- Near the heater or hi-temperature services or solarization
- Places apt to fall
- Never disassemble the combination audio; otherwise, it may invalidate the warranty.

FUNCTION OF LED INDICATOR

A. When charging

RED LED is on when the battery is charging.

RED LED is off when battery is fully charged.

B. When using the earphone

RED and BLUE LED blink alternately when the headphone is in pairing mode.

Stand By mode: the LED rapidly flashes BLUE.

Music playback mode: LED flashes slowly in BLUE.

RED LED blinks with sound alert when the battery has low power.

CHARGING BATTERY

The headset comes with a built in rechargeable battery. Before using it for the first time we recommend you charge the battery fully. Only use the supplied micro USB cable to charge the headset. Please charge for 3 hours.

Connect the micro USB connector of the charging cable into the micro USB port on the side of the headphone. Connect the other end of the USB cable to your computer's USB port or to an optional USB wall charger (not included)

The RED LED indicator light is illuminated.

The RED LED indicator light shuts off when the speaker is fully charged.

SWITCHING ON / OFF

Switch ON: Press and hold the MFB for about 5 seconds, until the LED flashes BLUE. You will hear a vocal message « Power ON » in the earphone.

Switch OFF: Press and hold the MFB for about 3 seconds, until the LED flashes RED. You will hear a vocal message « Power OFF » in the earphone.

PAIRING INSTRUCTIONS

You need to pair the headphone with your Bluetooth® enabled device (smartphone, tablet, mp3 player, computer, etc.) before enjoying the music wirelessly with the earphone.

Enter in pairingmode

Be sure that the earphone is in power off status first, press and hold the MFB for about 7 to 8 seconds, until red and blue led blink alternately. Then release the MFB button, the unit is now in pairing mode. The headphones emit the voice message "pairing".

Pairing the earphones with Bluetooth® devices

Make the headphones enter into pairing mode (please refer to above section)

Place the Bluetooth® headphone and Bluetooth® device (phone, tablet, music device) at 1 meter from each other.

Activate the Bluetooth® function on your Bluetooth® device. Please refer to the manufacturer's manual for instructions on enabling Bluetooth® on your device.

After searched, select "PBE111/2/3" in the device list on the Bluetooth® device.

If a password is asked, enter the "0000" and press "connect" (only some Bluetooth® devices will ask for a password)

When the connection is successful, the voice message "connected" is heard from headphones and BLUE LED will quickly flash a few times when pairing is successful.

Please note pairing mode on the headphone will last for around 3 minutes. If no devices are paired within around 3 minutes the headphone will automatically return to standby mode.

If pairing is unsuccessful, turn off the headphone first and then re-pair again following the above steps.

Re-connecting to Bluetooth® devices

Every time the headphone is switched on, it will connect to the nearest and the last connected device automatically.

When the headphone is in standby mode and doesn't connect to any device, short press the MFB button and it will connect to last connected device automatically.

Note: Headphones can be paired with two devices simultaneously.

LISTEN TO MUSIC

When the headphone is correctly paired with your Bluetooth® device, simply start to play music on your device and you can enjoy the sound wirelessly in your headphone.

Volume up in music mode: Short press on volume "+" key. You will hear a beep tone when the maximum volume level is reached.

Volume down in music mode: Short press on volume "-" key. You will hear a beep tone when the minimum volume level is reached.

Go to next song of your playlist: Long press on the Next « + » key.

Go to previous song of your playlist: Long press on the Prev « + » key.

Play/ Pause music: Short press on the MFB to pause the music. Short press again to play again.

HANDS-FREE FUNCTION

You can answer calls from your mobile phone when the headphone is paired with your mobile phone. If you receive a call when listening to music, your music will pause automatically and you will hear your telephone ring tone in the headphone.

Answer a call: Short press the multifunction button.

Reject a call : Press and hold the MFB button for 2 seconds until an indication tone is heard.

End a call: Short press the multifunction button.

Volume up in conversation mode: press volume "+" key. when the volume has reached the maximum level, you will hear an indication tone.

Volume down in conversation mode: press volume "-" key, when the volume has reached the minimum level, you will hear an indication tone.

MOBILE DEVICES SUPPORTED

In theory, it can support all equipments with Bluetooth® -enabled phone or music device that supports Advanced Audio Distribution Profile (A2DP) and Audio Video Remote Control Profile (AVRCP). In order for Bluetooth® devices to communicate with one another properly, they must utilize the same Bluetooth® profile. To determine the profiles supported by your device, please refer to the device's user guide. Certain Bluetooth features including those listed may not be supported by all compatible Bluetooth® -enabled devices, and/or the functionality of such features may be limited in certain devices.

TROUBLESHOOTING
