

- The light emits an extremely powerful beam equivalent to automotive headlights or it may cause a hazardous situation depending on the beam angle used.
- Be sure to direct the beam light downward so the driver approaching does not get dazzled.
- Do not use high beam on public roads.
- Before use, please make sure that the light is firmly mounted to the bracket, and the light is not blocked by luggage, etc.
- Do not start the light if it is Raining/Overcast. It may damage your display.
- Do not place it within children's reach.
- In preparation for emergency braking, we recommend you carry a spare light.
- The product is water-resistant under normal daily use and can be used in the rain. However, do not intentionally submerge it in water.
- If the light or car port become dirty with mud, etc., clean with a soft cloth which is moistened with mild soap. Never apply paint thinner, benzine or acetone directly.
- This unit is shipped with a small charge to check the unit before use. Please check it before use, according to the instructions "HOW TO CHARGE".

SMART MODE (WITHOUT SPEED SENSOR)

Always charge the product before use.

The mounting buckle and/or thumb screw, depending on the mount you are using.

Product Name: BICYCLE LIGHT
Model: RECON HL 900
FCC ID: 2AP8N-RECONHL900 IC: 23735-RECONHL900

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference, and
- 2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grants is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.

This device complies with Industry Canada's license-exempt RSSs. Operation is subject to the following two conditions:

- (1) This device may not cause interference; and**
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.**
