Operation of filter

◆ REPLACEMENT OF SPONGES ◆

If the water flow is too small due to dirty filter sponges and can not be improved through the automatic clean. The filter sponges must be washed or replaced.

Please do not use any chemical cleaning agents so as not to kill off the microorganisms in the filter sponges.

1. Disconnect the mains plug of the filter.
2. Switch off the pump and ensure that it cannot be switched on unintentionally, remove all hoses by unscrewing the union nuts.
3. Remove protective buckle, then open the clamp.
4. Lift off the lid with the filter sponge assembly. Place the lid upside down on another clean surface. The filter sponges are lying with filter plat facing up.
5. Remove the diversion pipe anticlockwise, remove the screws on the gear and the separate plate.
6. Remove the filter sponges to replace or clean.
7. Pull off the filter sponges part and clean them under flowing water. Give the filter sponges a good squeeze.
8. Clean the container, filter sponges, O-ring 3 and the edge of the container by spraying them with a water hose.
9. Put the sponge part as follow, put on the sponge plate, fixed cleanness gear set, fasten the diversion pipe.
10. Place the O-ring 3 onto the upper edge of the container.(In order to easy to fit you should make it wet). Press down on the lid.
11. Put the clamp on the right place, pull on the pull-tab , finally push the safety latch in.
12. Fasten all hoses with flat seals or flow vane to the corresponding connection by screwing the union nuts on tight.
13. Start the pressure filter up again.

◆ REPLACEMENT OF UV LAMP ◆

1. Unscrew the four screws on the lid.
2. Pull out of the UV head, then you can clean the quartz glass tube.
3. Clean the quartz glass tube with wet cloth.
4. Remove the fixing-nut on the quartz glass tube.
5. Pull out of the quartz glass tube then you can replace the UV lamp.
6. Check the quartz glass tube set, change it if broken.
7. Set up all part of the filter as before and start up the filter again.

◆ WEARING PARTS ◆

UV light, quartz glass tube, filter sponge, O-ring

◆ PARAMETER ◆

Model	CPW-20000	CPW-30000	CPW-50000	CPW-75000
Smart socket Maximum total power	≤800W	≤800W	≤800W	≤800W
Power of UV-C	36W	55W	55W	55W
Max flow-through(L/h)	12000L/h	12000L/h	13000L/h	13000L/h
