Photograph of Microphone Assembly: Component Side

Photograph of Microphone Assembly: Battery Side

A green printed circuit board (PCB) for a Raspberry Pi 4, showing the micro-USB port and various components. The board is oriented vertically with the micro-USB port at the top. It features a complex network of copper traces and several gold-plated mounting holes. Text on the board includes "Pi-4", "1818", "©2017-18", "2574E09 Rev", and "WILTON". A small black component, likely a USB-to-UART bridge, is visible near the micro-USB port.
