

HJ-CTBT

Bluetooth antenna of PCB on-board specification

V1.1

1、Index

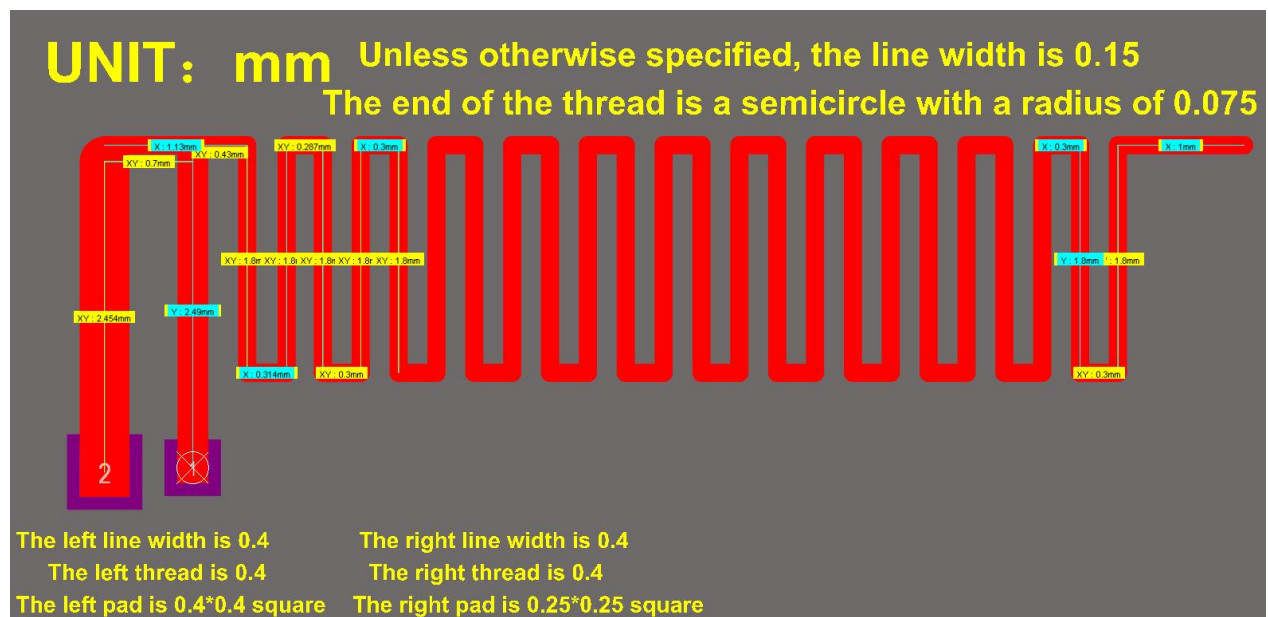

Item	Content	Page	Remark
1	Index	1	
2	Specification	2	
3	ANT size	2	
4	Return Loss	3	
5	Radiation Pattern	4-5	

Document Type: PCB Antenna
Document Version: V1.1
Release Date: Aug 25, 2023
Manufacturer: HJSIP

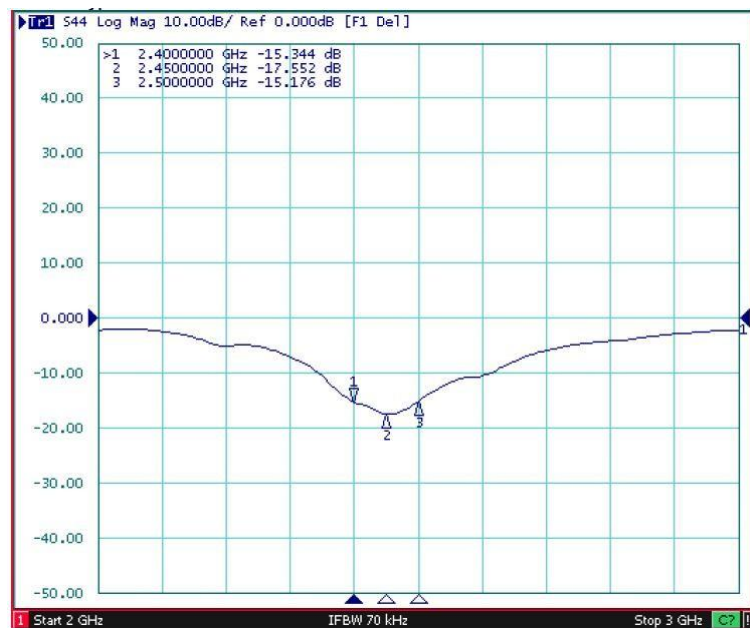

2、 Specification

Product Number: PCB Antenna	
A. Electrical Characteristics	
Frequency	2400 ~ 2500 MHz
S.W.R.	≤1.8
Gain	Max ≤ 1.76 dBi
Efficiency	~ 45%
Polarization	Linear
Impedance	50 Ohm
B. Material & Mechanical Characteristics	
Material of Radiator	plated copper
C. Environmental	
Operation Temperature	- 40℃ ~ + 85℃
Storage Temperature	- 40℃ ~ + 105℃

3、 ANT size

3、Return Loss

4、Radiation Patter

Radiation Pattern and Gain were dependent on measurement board design. The specification of coil antenna was measured based on the PCB size and installation position as shown in the below figure Test Board.
