

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing a conducted emission test setup. On the left, a spectrum analyzer sits on a wooden bench. A red cable connects it to a power supply unit on the floor. To the right, another power supply unit is on the floor, with a black cable leading to a device on a white table. A pair of headphones is also on the table. The background is a plain wall with a power outlet.
Radiation Emission Test Setup (Below 30MHz)	 A photograph of a radiation emission test chamber. The walls are covered with white, square-shaped electromagnetic interference (EMI) absorbers. A metal frame stands in the center, supporting a white rectangular object. The floor is concrete with yellow safety markings.

**Radiation Emission Test
Setup (30MHz to 1GHz)**

**Radiation Emission Test
Setup (1GHz to 18GHz)**

**Radiation Emission Test
Setup (Above 18GHz)**
