

Smart Life

Thank you for using smart camera

FCC SDpC

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to other licensed operations. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF Exposure Information:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to other licensed operations. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This equipment should be used only as intended. Use of the equipment for purposes not intended by the manufacturer may result in interference to other equipment and may cause damage to the equipment. This equipment may not be used in areas where the use of such equipment is prohibited. The user is responsible for ensuring that the equipment is used in accordance with the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Basic Parameters

Product Name: Smart Camera
Pixel: 2.0MP/3.0MP/5.0MP/8.0MP/12.0MP
Video Compression: H.264/H.265 High Profile
Audio Compression: AAC/L2
Local Storage: Micro TF card
Wireless Encryption: WEP/WPA/WPA2 Encryption
Wireless Standard: 2.4G/5G/11 High
Support Platform: Android/iOS

Component Description:

Reset Button: Long press "reset" hole Reset, reset success.
It is recommended to insert 6-1200mAh high-speed Micro TF card, otherwise it will not be able to store, view historical video and support important functions such as firmware upgrading.
Plugging in: Smart Camera * 1, Manual * 1, USB Power Cord * 1, Power Adapter * 1, Screen Accessories Package * 1

Install APP

Download APP: scan the QR code below to download and install. Register and login: open the "Smart Life" APP to register and login (Figure 13) and log in (Figure 14).

Add The Device-Scan QR code mode

- Make sure Wi-Fi is available and connected to the Internet.
- Open the Smart Life APP, press the "+" in the upper right corner of the main screen (Figure 01); choose "Security & Video Surveillance" - click "Smart Camera" (Figure 02) to add camera, and then click "Next step" (Figure 03).

Reset note that only 2.4 GHz Wi-Fi network is supported

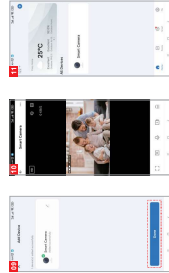

- If the mobile phone is not connected to Wi-Fi, please click "Connect to Wi-Fi" (Figure 04).
- If the phone is connected to 5GHz Wi-Fi (Figure 05).

- A QR code will appear on your screen and you need to scan it with the mobile phone (Figure 06).
- After scanning the QR code, the prompt page will appear (Figure 07).

- Connection completed (Figure 08), and click "Done".
- After doing the device preview operation, the interface returns to the APP home page. At this time, the connected device will appear on the APP home page. If the device is not connected, the interface will show the device is not connected. Please check the connection status of the device and try to connect it again.

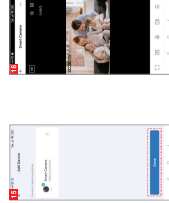

Add device-WiFi fast connection mode

- Click to complete the connection (Figure 10).
- Video screen (Picture 10).

- Click to complete the connection (Figure 10).
- Video screen (Picture 10).

Matters Need Attention

- Do not use the camera in the following situations:
Avoid the places where the audio, video and data lines are wound, and keep the space away from them as large as possible.
Avoid the places where there are strong magnetic fields, such as high-voltage signals, switching network environment.

In the new network environment, please press the reset hole about 5 seconds, then connect to the network.

The name and content of the harmful substance in the product

Harmful Substance									
Part Name	Pb	Hg	Cd	Cr(VI)	PBB	PFDE			
Shell	○	○	○	○	○	○			
Board	○	○	○	○	○	○			
Wiring	○	○	○	○	○	○			
Accessories	○	○	○	○	○	○			

This form is based on the provisions of SJ/T 11364.
The product conforms to RoHS environmental protection requirements. At present, there is no mature technology in the world to replace or reduce the presence of these substances in the electronic products, printed circuit boards and components.
