

80x80mm

Smart Life

Thank you for using smart camera

jz

Basic Parameters

Product Name: Smart Camera
Video Compression: H.264 H.265 High Profile
Image Enhancement: Digital Wide Dynamic 3D Noise Reduction
Local Storage: Micro TF card
Wireless Encryption: WEP/WPA/WPA2 Encryption
Power Input: 5V 1A(Min)
Total Power Consumption: 5W (Max)
Wireless Standard: 2.4G 802.11 b/g/n
Support Platform: Android/iOS

Component Description:
Reset Button: Long press "reset" hole 5sec, reset success.

It is recommended to insert 8-256GB high-speed Micro TF card, otherwise it will not be able to store, view historical video and support important functions such as firmware upgrading.

Packing list: Smart Camera x1, Manual x1, USB Power Cord x1, Power Adapter x1, Screw Accessories Package x1, Magnetic sticker x2, Cable organizer x4

Install APP

Download APP: scan the QR code below to download and install.
Register and login: open the "Smart Life" APP to register and login according to the prompts.

Add The Device-Scan QR code mode

- Make sure Wi-Fi is available and connected to the Internet.
- Connect the camera to the power, then system startup is completed.
- Open "Smart Life" APP; press the "+" in the upper right corner of the main screen (Figure 01); choose "Security & Video Surveillance", click "Smart Camera" (Figure 02) to add camera; and then click "Next step" (Figure 03).

Please note that only 2.4 GHz Wi-Fi network is supported:

- If the mobile phone is not connected to wi-fi, please click "Connect to Wi-Fi" (Figure 04);
- It will jump to the WLAN interface and connects Wi-Fi (Figure 05);
- If the phone is connected to Wi-Fi (Figure 06);

A QR code will prompt on your screen and you need to scan it with the Smart Camera. (the camera is about 20-30 cm away from the mobile phone lens). Then click "hear the prompt sound" (Figure 07, "connecting" (Figure 08)).

- connection completed(Figure 09), and click "Done";
- Then jump to preview interface (Figure 10)

After closing the device preview interface, the interface returns to the APP home page. At this time, the connected device will appear on the APP home page (Figure 11). Then you can click directly to the device interface to see the monitoring situation without re-adding afterwards.

Add device-Bluetooth fast connection mode

"The APP automatically searches for the device and "Find the device" Click Add (Picture 12)
Enter the Wi-Fi account and password and click Next (Picture 13)

Turn on the Bluetooth function of the phone
Turn on the location
APP automatically searches for the device.

Connection successful Click Complete (Picture 14)
Video screen (Picture 15)

Matters Need Attention

FCC SDoC

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2)the device must accept any interference received, including interference that may cause undesired operation.

FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate

radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1)This device may not cause harmful interference, and (2)the device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
