Setting Up Your iPhone

Compatibility

This iPhone is compatible with iPhone carrying USB-C to Lightning cables that are Apple-certified or MFi-certified and authorized accessories.

Steps

- 1 Turn on the iPhone. Tap **Get Started**. Tap **Use Your iPhone**.
- 2 Follow the on-screen instructions. Connect to Wi-Fi and create an Apple ID.

Managing Your Wallet

Adding New Cards

- 1 Open the **Wallet** app. Tap the **+** button in the top right corner.
- 2 Follow the on-screen instructions to add a new card.

Managing Existing Cards

- 1 Tap the **Wallet** app. Tap the **+** button in the top right corner.
- 2 Tap the card you want to manage. Tap the **+** button in the top right corner.

1. When the status light is on, remove the battery. It will flash orange when the **red dot** is present, indicating the battery is low.

2. The status light will glow green when charging is complete.

3. When your **red dot** is gone, the charge is back on track once more.

Unwanted Tracking Notification

If your **red dot** is used by someone else or picked up by another person, your **black dot** may receive a tracking alert.

Safety Tips

1. Avoid placing the **red dot** in extremely hot or cold conditions (like -20°C or 32°F or below).
2. Don't expose the **red dot** to water or liquids to avoid causing short circuits, damage, corrosion, or permanent damage.
3. Check the **red dot** before using, making sure it is not damaged. If you notice any cracks or signs, stop using right away.
4. Do not disassemble or modify this **red dot** for any reason. Avoid unauthorized attempts to tamper with the **red dot** as this may cause damage, injury, or even death. Do not tamper with the device.
5. Do not use the **red dot** in areas with high moisture or combustible materials, as this could cause permanent damage. If any smoking damage is not covered by the warranty.
