Label location

Installation

Mounting Instructions

Install Single Door Controller inside electrical box using provided 6-32 screws or on drywall using provided anchors and screws.

For a standard US 1-gang box:

1. Use two 6-32 screws to attach backplate to gang box
2. Snap on main housing to back plate
3. Use provided M4 screw to secure main housing to back plate
4. Slide on front cover

SD Slot

Do not remove the SD card unless instructed by Openpath.

WiFi and Device Placement

The Single Door Controller is WiFi-enabled. If using WiFi,
