

Declaration on model difference

We the undersigned hereby confirm that these models are identical, and all models have the same electrical circuit design, layout, components used and internal wiring are identical, only diferent in laser distance module, resolution, model number and software.

UTi730E is the same as UTi730V, except that UTi730V has laser distance measurement, UTi730E has not.

UTi740E is the same as UTi740V, except that UTi740V has laser distance measurement, UTi740E has not.

UTi730V, UTi740V are identical, except for resolution, model number and software.

Production name	Trademark	FCC	Model no.
Professional Thermal Imager	UNI-T	2APMK-7401209E	UTi730V, UTi730E, UTi740V, UTi740E
