

Date: August 16, 2018

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Rd
Columbia MD 21046-1609

Subject: Request for confidentiality
FCC ID: 2APOM-MQBA0

To whom it may concern:

We request that the user manual currently filed be substituted with an updated version, because it currently contains confidential information (block diagram) and not needed information (product pictures).

We request that the internal photos be made confidential, permanently, because they also contain sensitive proprietary information that is protected under NDA. The public disclosure of these photos might be harmful to the Applicant and provide unjustified benefits to its competitors. Furthermore, these internal components are not accessible to the end user. See below example image of where the device will be installed:

We declare we are aware that the user manual including block diagram and internal photos were already publicly available. We wish to have the current user manual replaced and the internal photos made confidential.

Thank you for your consideration in this matter.
