The first and second lights are on, the third light flashes	50%-75%
The first three lights are on, the fourth light is flashing	75%-99%
Four lights are on	100%

5. Product Specification

Tilt Angle	160°
Roll Angle	325°
Pan Angle	340°
Net Weight	348g
Max Payload	280g
Working Temperature	0C°-40C°
Controllable Tile Angle	+30°/-30°
Controllable Roll Angle	+90°/-90°
Controllable Pan Angle	+240°/-100°
Working Voltage	3.4~4.2V(Standard 3.7V)
Compatible Smartphone	Width: 55mm-90mm
Compatible Range	Diagonal: ≤180mm Thickness: 55-90mm Width: ≤9.5mm

Working Current	150~3000mA(Standard 1500mA)
Gimbal Dimension	Unfold: 260mm*130mm*88mm Folded: 152mm*110mm*46.6mm
Charging Time	3H
Working Time	4.5-5H
Face Tracking	yes
APP	yes
Input Voltage	5V
Input Current	1A

6. Cautions

- 1/ Ensure the motor rotation is not blocked by external force during and after the stabilizer is powered on;
- 2/ Please do not contact with sea water or corrosive liquid, if the stabilizer unmarked waterproof.
- 3/ Please do not disassemble the stabilizer (except for the detachable accessories in the manual);
- 4/ If the motor works continuously for a long time, the surface temperature of the motor may be too high.
- 5/ It is strictly forbidden to drop or collide with the stabilizer, which may damage it and cause abnormal operation;

7. Storage and maintenance

1/ Please keep this product and battery away from children and pets;

2/ It is forbidden to put the product and battery near the heat source (furnace or heater, etc.) and in the car at hot weather;

3/ Please store the product and battery in a dry environment;

4/ Do not overcharge or discharge the battery, otherwise the battery cell will be damaged;

5/ Do not use the product and battery in the environment with too high or too low temperature;

8. FCC caution

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC RF Radiation Exposure Statement:

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
