

3-in-1

Magnetic Wireless Charger

User Manual

Note: Thank you very much for choosing this product. In order to enjoy the better using experience please read this manual carefully to ensure you can use this product perfectly. Wish you have a good user experience.

Product Introduction

The product is a 3-in-1 wireless charging pad, preferred smart chip , and supports mobile phones, smart watches, earphones. Achieve high efficiency, stable performance, put it on and charge, easily enjoy wireless charging technology life. It can also wirelessly charge mobile phones or other electronic devices that support Qi standard.

Specification

Input: QC/PD 9V=3A	Materials: ABS+PC
Output: 5W/7.5W/10W/15W(Smart Phone)	Size: 103*76*29mm
Output: 5W (Earphone)	Weight: 153g
Output: 2.5W(Smart Watch)	Operating Frequency:
FCC ID: 2APQD-AD02	115-205KHz(Phone+Earphone)
	300-350KHz(Watch)

Compatibility

1. Smart Phone
For Apple: iPhone 17 / 16 / 15 / 14 / 13 / 12 / 11 / 8 / X / XS Series
(Note: The magnetic attraction function of the phone is only applicable to the iPhone 12/13/14/15/16/17 series; Other models of mobile phones require a magnetic ring for magnetic charging)

2. Smart Watch
For Apple Watch Ultra / Ultra2 / SE / 11 / 10 / 9 / 8 / 7 / 6 / 5 / 4 / 3 / 2 Series

3. Earphone
For AirPods 2 (with wireless case) / AirPods pro / AirPods pro2 / AirPods 3 / AirPods 4 ;
Samsung Galaxy Buds, Buds+, Buds Pro, Buds Live;
Soundcore Liberty Air 2, Air 2 Pro, 2 Pro
(All TWS earphones with wireless charging)

Note: Adapt to all devices that support wireless charging

Charging Method

① Layflat Mode: Lay the device flat on the charging pad(device must be centered on the charging pad),Start charging.

② Folding Mode: Minimal size to maximize desktop space savings.

③ 3D Mode: Small size while still being able to charge multiple devices.

Safety Notice

1. Please do not pull the power cord strongly to avoid the power cord breakage or fall off.
2. Do not disassemble or put into fire or water to avoid short circuit and leakage.
3. Do not use the product in severe heat, humidity or corrosive environment to avoid damage to the circuit leakage.
4. Please do not give children to play to avoid unnecessary accidents.
5. When using fast charging, please use qualified QC3.0 charging power adapter and fast charging cable, otherwise it may cause charging instability.
6. Please do not put metal debris or magnetic cards on the charging board, which may cause damage or abnormalities to the charger.
7. If you encounter the receiving coil or transmitting board overheating during use, resulting in stopping charging, please remove the charging product, wait for it to cool down, and then try charging again.

FAQ and Solution

- 1.Is the phone not charging?
The phone is not aligned with the sensing area or the receiving coil is not installed correctly.
- 2.Heats up while charging?
It is normal for the receiving coil or the transmitting board to heat up during the wireless charging process.
- 3.Phone charging intermittently?
A.If the charging current of the adapter is not enough or the voltage is unstable, please use the QC3.0 fast charging adapter to charge.
B.The charging position is too biased, and the electromagnetic induction is not good. The charging position can be adjusted.
- 4.The main unit indicator light is normal, but the mobile phone does not work?
The receiving coil of the mobile phone is faulty, it is recommended to update the receiving coil or repair the mobile phone (built-in receiving coil).

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
