

Magnetic Stand Wireless Charger

User Manual

Product Introduction

This product is a magnetic stand wireless charger, the magnets can be accurately aligned with your phone, and your phone a paste that fit, so that the wireless charging speed is greatly enhanced (power up to 15W), to achieve high efficiency, stable performance, put on the charging, easy to enjoy wireless charging technology life. It can also be used to wirelessly charge cell phones or other electronic devices that support the Qi standard.

Specification

Model: H9	Working Frequency: 115~205kHz
Input: QC/PD 5V=3A/9V=2A	Materials: ABS+PC+Metal
Output: 5V=1A/9V=1.1A/9V=1.66A	Size: 81.5*81.5*17mm
FCC ID: 2APQD-H9	Weight: 115g

FAQ and Solution

1. Is the phone not charging?
The phone is not aligned with the sensing area or the receiving coil is not installed correctly.
2. Heats up while charging?
It is normal for the receiving coil or the transmitting board to heat up during the wireless charging process.
3. Phone charging intermittently?
A. If the charging current of the adapter is not enough or the voltage is unstable, please use the QC3.0 fast charging adapter to charge.
B. The charging position is too biased, and the electromagnetic induction is not good.
The charging position can be adjusted.
4. The main unit indicator light is normal, but the mobile phone does not work?
The receiving coil of the mobile phone is faulty, it is recommended to update the receiving coil or repair the mobile phone (built-in receiving coil).

Compatibility

For Apple: iPhone17, iPhone17 Pro, iPhone17 Pro Max, iPhone17 Air
iPhone16, iPhone16 Pro, iPhone16 Pro Max, iPhone16 Plus
iPhone15, iPhone15 Pro, iPhone15 Pro Max, iPhone15 Plus
iPhone14, iPhone14 Pro, iPhone14 Pro Max, iPhone14 Plus
iPhone13, iPhone13 Pro, iPhone13 Pro Max, iPhone13 mini
iPhone12, iPhone12 Pro, iPhone12 Pro Max, iPhone12 mini
iPhone SE (2 Generation)
(Note: Magnetic charging of cell phones is only applicable to iPhone 12/13/14/15/16 series)
Note: Compatible with all Qi-enabled smartphones.

Safety Notice

1. Please do not pull the power cord strongly to avoid the power cord breakage or fall off.
2. Do not disassemble or put into fire or water to avoid short circuit and leakage.
3. Do not use the product in severe heat, humidity or corrosive environment to avoid damage to the circuit leakage.
4. Please do not give children to play to avoid unnecessary accidents.
5. When using fast charging, please use qualified QC3.0 charging power adapter and fast charging cable, otherwise it may cause charging instability.
6. Please do not put metal debris or magnetic cards on the charging board, which may cause damage or abnormalities to the charger.
7. If you encounter the receiving coil or transmitting board overheating during use, resulting in stopping charging, please remove the charging product, wait for it to cool down, and then try charging again.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.

Warranty Coverage

If the product does not work properly during normal use or fails during normal use, and is determined by our company, you can enjoy Subject to our company's after-sales service commitment.

The following cases are not covered by the warranty:

1. accessories are not warranted.
2. failure caused by improper operation of the user.
3. caused by accidental disasters, man-made damage, self-disassembly, random disassembly, etc. caused by failure.
Note: The damage caused by improper operation of the user mobile equipment, or even bring danger, our company does not assume any responsibility.
4. Overdue maintenance (products more than six months warranty period, customers still enjoy maintenance services, but need to pay the maintenance labor, material costs, etc.)
