

A. Product Labeling

- 1 Microphone
- 2 3.5mm audio jack
- 3 micro USB charging port
- 4 Bluetooth connection status indicator and charging status indicator
- 5 "+" key: volume up, next song
- 6 "0" key: Power on/off, Music play/pause call
- 7 "-" key: Volume down, previous song

Volume down/previous song

- Press the "-" key to decrease the volume.
- Press and hold "-" button to switch to the previous song.

Charge

- When the headset indicates low battery, turn off the headset and charge it.
- Connect the USB charging port to 5V power supply adapter.
 - Connect the headset charging port.
 - When charging: Charging indicator is red.
 - Charging completed: Charging indicator is off.

B. Pairing Steps

- In power-off state, long press the power button 2 seconds, until the red and blue lights flash alternately, it will be pairing mode automatically.
- Turn on the Bluetooth switch of your phone or other Bluetooth product.
- Search Bluetooth pairing name "JH-803" and click "connect".
- The Bluetooth connection status indicator is flashing blue slowly with a success pairing tone.
- The headphone memorizes the current device and it will pair automatically to the second time.

Power On/Off

- Turn on: In power-off state, long press the power button 2 seconds, voice prompt "Power on", the blue light will flash.
- Turn off: In power-on state, long press the power button 2 seconds, the voice prompt "Power off", the light will be off.

Music play

- Press the power-on button to play or pause music.

Call

- Answering call: Press the power button to answer the incoming calls.
- Ending call: Ongoing conversation on cellphone can be ended by pressing the power button.
- Rejecting call: Double press the power button to reject when call is incoming.
- Redial last number: The cellphone will dial the last dialed phone number by double pressing power button.

Volume up/Next song

- Press the "+" key to increase the volume.
- Press and hold "+" button to switch to the next song.

Wired Function

In power-off state, put audio cable into the headphone jack at one end, and put the other end into the phone or other product's audio output port.

C. Headset parameters

Bluetooth chip: CSR8635
Bluetooth version: Bluetooth V4.1
2.4G Frequency: 2.400~2.480GHz;
Frequency response: 20Hz-20KHz
Support: JFPCV1.6, HSPV1.2, A2DPV1.2, AVRCPV1.0, DUN V1.3
Charging time: 3 H
Music play time: 10 H
Receive sensitivity: -80dB
Working range: 10m

D. About Bluetooth Communication

- Bluetooth wireless technology operates within a range of approximately 10m and may vary depending on the obstacles (body, metal, wall, etc.) or the electromagnetic environment.
- Bluetooth communication may be interrupted, noise or audio loss may occur under the following conditions:
 - There are obstacles such as metal or wall between the unit and the Bluetooth device.
 - There are devices working on 2.4GHz frequency near this unit, such as Wi-Fi devices, cordless phones, or microwaves.
 - Because Bluetooth devices and Wi-Fi work on the same frequency (2.4GHz), microwave interference may occur if this unit is used near a Wi-Fi device, causing noise or audio loss or communication interruption. In this case, do as follows:
 - Use the unit at least 10m away from the Wi-Fi device.
 - If you use this unit within 10m from the Wi-Fi device, turn off the Wi-Fi device.
 - Place the unit and Bluetooth device as close as possible to each other.
- The microwave emitted from the Bluetooth device may affect the operation of the electronic devices. The following places please turn off this unit and other Bluetooth devices, or it may cause an accident:
 - The place which stores flammable gases in a hospital or gas station.
 - Near automatic doors or fire alarm bell.
 - Always use the 3.5mm jack cable when using this unit on airplane.
- Due to the nature of wireless technology, the sound played on this unit may be delayed or distorted. Please be aware of this when watching movies or playing games.

E. About Bluetooth Communication

- Do not turn on the unit and don't use Bluetooth.
- If the unit is not used for a long time, the rechargeable battery may not be able to retain enough power. After repeated charge and discharge several times, the battery will be able to maintain the appropriate power.
- If you stop the unit for an extended period of time, charge the battery every six months to prevent over-discharge.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance with the FCC rules may void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. It has been found that this equipment does not cause interference to radio communications when it is used in accordance with the following conditions:

- This equipment must be used within the limits specified in the instructions.
- If interference occurs, the user is encouraged to try to correct the interference by one or more of the following:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and the receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

Important: Any changes or modifications to the equipment not approved by the party responsible for compliance with the FCC rules may void the user's authority to operate the equipment.

Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be used so that the minimum distance 0mm between the radiator and your body.

This transmitter must not be co-located or operating in conjunction with any other equipment or facilities.
