Application for Class II Permissive Change

Dear Sir/Madam:

We respectfully wish to apply for a Class II permissive change for the above referenced FCC Identifier under the provisions of FCC rule 2.1043.

The change filed under this application entails changing the antenna to the higher gain of 7 dBi instead of 2 dBi. Additionally, the type of modular approval changed from Single Modular Approval to Limited Modular Approval. There are no other changes to the hardware.

The change implemented complies with KDB 178919 D01 Permissive Change Policy v06: No components have been added or removed, nor has there been any change to PCB. The equipment is identical to previously certified apart from the modular transmitter type and new antenna with the higher gain.

Test reports showing compliance are submitted with this application.

The applicant certifies that no party to this application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug abuse Act of 1988.

Our FRN number is 0027543099

Your prompt attention to this matter is appreciated. Please let me know if there are any questions or if further data is required.

Sincerely,

Patrick Clement
Production Manager
