◆ Warning

Any changes or modifications not expressly approved
by the party responsible for compliance could void the
user's authority to operate this equipment.

◆ FCC Statements

This device complies with Part 15 of the FCC Rules
Operation is subject to the following two conditions
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received
including interference that may cause undesired
operation

NOTE: This equipment has been tested and found to

comply with the limits for a Class B digital device,
pursuant to Part 15 of the FCC Rules. These limits are
designed to provide reasonable protection against
harmful interference in a residential installation. This
equipment generates uses and can radiate radio
frequency energy and, if not installed and used in
accordance with the instructions, may cause harmful
interference to radio communications. However, there
is no guarantee that interference will not occur in a
particular installation. If this equipment does cause
harmful interference to radio or television reception,
which can be determined by turning the equipment off
and on, the user is encouraged to try to correct the
interference by one or more of the following measures:
Reorient or relocate the receiving antenna
Increase the separation between the equipment and
receiver
Connect the equipment into an outlet on a circuit
different from that to which the receiver is connected
Consult the dealer or an experienced radio/TV
technician for help

This equipment complies with FCC radiation exposure
limits set forth for an uncontrolled environment. This
equipment should be installed and operated with
minimum distance 20cm between the radiator and your
body. This transmitter must not be co-located or
operating in conjunction with any other antenna or
transmitter.
