APP SET UP

1

Connect the camera to power via included USB Charger (If you are not setting up the camera for the very first time, press the Reset button instead for 5 seconds until you hear a beep.)

2

Please download the LaView App from the App Store or Scan the QR Code below. LaView App is available for both iOS and Android OS. Search the name 'LaView', in App Store or Google Play. (The other LaView apps, such as LaView Connect, LaView ONE, LaView Life do NOT support R12 camera)

12

Tap 'Authorize'

Alexa by Amazon will be able to:
Receive your public profile
Control your devices over internet

Authorize

13

Tap 'Done' after the LaView APP is linked to the LaView Skill.

amazon alexa

LaView has been successfully linked.

What to do next:
→ Close this window to discover smart home devices you can control with Alexa.

14

Tap 'DISCOVER DEVICES'

CANCEL

DISCOVER DEVICES

15

Wait until the Alexa APP discovers the LaView camera. Check the following if Alexa repeatedly fails to discover the camera.

A. Ensure the LaView camera, the Alexa device and your phone are connected in the same Wi-Fi network.

B. Ensure the LaView camera is powered on and set up in the LaView APP.

C. Ensure the Alexa device, such as Echo Show, is set up and connected.

D. Ensure the camera is added to the LaView account that is linked to the LaView Skill in the Alexa APP

16

You can now tell your Echo device to show the camera feed by calling 'Alexa, Show Baby Room'. You can change and update the camera name in the LaView APP camera menu. (Refer to Step 3)

" Alexa, show me the baby room "
