- Due to differences in individual physique, your skin may exhibit hair growth on certain parts of the body. Careful consideration should be taken before use!
- Please follow doctor's regular treatment when you are sick.

- This instrument is used for massage and it is not a replacement of any treatment.
- Please do not allow children to use, operate or contact with the instrument (strong suction easily causes danger).
- Please stop using the instrument immediately if you feel unwell in the process.
- Please be sure to use the designated essential oils and skin care products from special ingredients and original supplies to avoid eroding the cup material and the phenomenon such as blisters, broken skin, bruises, and pore blockage from happening.
- Please begin with a low pressure (level 3-5) and gradually adjust to a comfortable strength.
- Overly strong suction may damage skin and cause blisters, bruises or bone fractures, please focus on comfort first and gradually increase the strength and use carefully.
- Do not exceed 30 minutes per use on breasts, abdomen and buttocks, the interval of usage should be more than 6 hours. Other than body parts mentioned above, it is recommended to move from a body part to another body part every 3 minutes for repeating use.
- Bruises are caused by exudation of blood from blood vessels into the skin, exhibiting purple red colour. Human body has self-repairing function, skin gradually recovers when the bruises absorbed by body naturally in a week or two.
- Healthy Cup must be disinfected before and after use, do ensure vibrating part does not contact with water during cleaning.
- After use, sweat and waste discharged from the body part may cause skin discomfort. Please cleanse or wipe the skin immediately with water.
- After use, be sure to remove the power plug for safety.
