Author	Revision	Date	Change Description
Rob Mueller	A	3/31/2026	Production release
Rob Mueller	B	5/15/2026	Revised drawing

Label Placement:

Front/Top:

Notes:

1. The label is larger than the module.
2. The label cannot be placed upon the module until after reflow.
3. The original module has laser etched labeling and this cannot be marked over so a label is the only solution.
4. The label is considered temporary but can be left in place.
5. This labeling information is also provided in the User Manual / Integration Guide.
