HP Projector SH180

QUICK START GUIDE

Technical Support: For more detailed usage instructions, please download the HP SH180 user manual at [seprojector.com](#)

REMOTE

- 1 Power Button
- 2 Input Button
- 3 Navigation
- 4 Home
- 5 Volume +/-
- 6 OK
- 7 Back
- 8 Settings
- 9 Shortcut to NETFLIX
- 10 Shortcut to YouTube
- 11 Shortcut to prime video

* Make sure you have installed the AAA batteries inside the remote. Make sure the battery polarity is the same as the one inside the remote.

PROJECTOR INSTALLATION

POWER ON/OFF

Note: The safety mounting screw hole is located on the bottom of the projector. Mounting Screws 1/4" (6.35mm) (not included).

Note: The safety mounting screw hole is located on the bottom of the projector. Mounting Screws 1/4" (6.35mm) (not included).

Electric/Multi-Media Focus

Press the Focus button 10-15 times then press the Up and Down buttons to adjust the image focus. The Up button brings focus closer.

PROJECTOR CONNECTION AND INPUT SOURCE

- 1 USB
- 2 Audio In/Out
- 3 HDMI

Find a place to use the projector

- 1 USB Type-C Port

Connect your device to the projector correctly. Then select the right input on the projector.

Use the remote to select the input

1. Press the Input button on the remote. Press the Up or Down button to select the input source.

Use Speaker and Subwoofer Connection

Note: The projector has a 3.5mm (1/8") audio port. Supports power supply from a power bass (minimum Class DMS).

WIFI CONNECTION

Connect your projector to wireless network by plugging in **Homegear+** **Setting** > **Network** > **WiFi**.

SCREEN MIRRORING

Important Note: Changed content from Hulu, Disney or other similar streaming services CAN'T be automatically mirrored. Content due to copyright restrictions.

For iOS System

Step 1: Connect the projector and your mobile device to the same Wi-Fi network.

Step 2: Scan the QR code with **Apple TV** or **Apple** application. Then select **ScreenMirroring** on the pop-up.

Step 3: Choose **HP SH180** from the list and once the connection is successful, the content on your iOS device will be mirrored onto the projector screen as well.

Note: It is necessary to download the **ScreenMirroring** app for the initial setup.

Step 4: Go back to **Apple TV** app, and then select the **ScreenMirroring** app.

Step 5: Go to the **Control Center** of your iOS device, from **Screen Mirroring** to select the projector.

Step 6: Choose **HP SH180** from the list and once the connection is successful, the content on your iOS device will be mirrored onto the projector screen as well.

For Android System

To activate the function, please make sure your Android device supports **Multi-screen Connect OneView/Screen Display**. Name any of the devices below.

Step 1: Go to the **WiFi** setting of your Android device to switch on the option of **Screen Mirroring**.

Note: It is not necessary to have successful Wi-Fi connection, but it is important to ensure that the Wi-Fi is turned on for your Android device.

DLNA

Step 1: Connect the projector and your mobile device to the same Wi-Fi network.

Step 2: Go to **Homegear+** > **My Apps** > **HomeMedia**. Ensure the Wi-Fi connection is successful.

Step 3: Launch an application on your mobile device and click on video to play.

Note: When you click on video to play, the video will be sent to the projector. The content on your device will remain on the projector screen as well.

DLNA

1. Connect the projector and your mobile device to the same Wi-Fi network.

2. Go to **Homegear+** > **My Apps** > **HomeMedia**. Ensure the Wi-Fi connection is successful.

3. Launch an application on your mobile device and click on video to play.

Note: When you click on video to play, the video will be sent to the projector. The content on your device will remain on the projector screen as well.
