

A photograph showing two views of a small, black plastic electronic device. The device is rectangular with rounded corners and a textured surface. The top view shows a green printed circuit board (PCB) with various electronic components, including resistors, capacitors, and integrated circuits. The bottom view shows the black plastic casing with four circular mounting holes and a central cross-shaped cutout. A ruler is placed next to the device for scale, showing measurements in centimeters and millimeters. The ruler is marked from 0 to 10 cm, with millimeter markings every 1 mm. The device is approximately 4 cm long and 2 cm wide.
