RE: CONFIDENTIALITY REQUEST FOR (Q-100 Wireless Charger)

To Whom It May Concern:

This letter serves as an official request for confidentiality under sections 0.457 and 0.459 of CFR 47. We have requested that the following documents required to be submitted with this application be permanently withheld from public review.

- **Block Diagram**
- **Schematics**
- **Theory of Operation**

These documents contain detailed system and equipment descriptions and related information about the product, which manufacturer/applicant considers to be proprietary, confidential, and a custom design and otherwise, would not release to the general public. Since this design is a basis from which future technological products will evolve, manufacturer/applicant feels that this information would be of benefit to its competitors, and that the disclosure of the information in these documents would give our competitors an unfair advantage in the market.

Our device is used for charging a fall detection device that is inside an enclosure that is Ultrasonic Welded and nobody can access the electronic components.

Please contact me if there is any information you may need.

Sincerely,

A handwritten signature in black ink that reads "Jesus E. Ramirez". The signature is fluid and cursive, with the first name "Jesus" and last name "Ramirez" clearly legible.

Jesus E. Ramirez
