

A white, circular electronic device is shown against a blue background. A white cable is connected to the top of the device. The device has a circular base with a grid of small holes. A red arrow points to this grid. Two wooden rulers are placed around the device for scale: one vertically on the left and one horizontally at the bottom. The vertical ruler is marked in centimeters from 1 to 22, with 'Made in China' printed on it. The horizontal ruler is marked in centimeters from 1 to 23, also with 'Made in China' printed on it. The device is approximately 5 cm in diameter.
