FRONT

A thoughtfully-designed night light with
your best sleep in mind.

At Casper, everything we dream of is designed to help you sleep better, deeper. Yes, even night lights.

SLEEP MODE

This setting is perfect for bedrooms, as the constant indirect pool of light is gentle and won't disrupt sleep. The Ambient Light Sensor automatically turns the Night Light off once it detects brightness in the room.

MODO DE SUEÑO

Este modo es perfecto para las recámaras, ya que la luz constante e indirecta es suave y no interrumpirá el sueño. El sensor de luz ambiental automáticamente apaga la luz de noche cuando detecta iluminación en el cuarto.

MODE VEILLE

Cette fonctionnalité est idéale pour la chambre à coucher, puisque la lumière douce et indirecte uniforme ne perturbe pas le sommeil. Le capteur de luminosité éteint automatiquement la veilleuse lorsqu'il détecte de l'éclairage dans la pièce.

Una luz de noche cuidadosamente
diseñada con su mejor sueño en mente.

En Casper, todo lo que soñamos está diseñado para ayudarle a dormir mejor y más profundamente. Sí, hasta las luces de noche.

Une veilleuse intelligemment conçue pour que vous dormiez sur vos deux oreilles.

Chez Casper, nous concevons des produits qui vous aident à profiter d'un sommeil agréable et réparateur. Ça inclut bien sûr les veilleuses.

NIGHT OWL MODE

This switches on the Motion Sensor, which increases brightness of the Night Light once any movement nearby is detected. This setting is great for hallways, bathrooms, and kitchens.

MODO DE NOCTÁMBULO

Esto enciende el sensor de movimiento, que incrementa la iluminación de la luz de noche cuando detecta movimiento en el área cercana. Este modo es ideal para los pasillos, baños y cocinas.

MODE NOCTURNE

Cette fonctionnalité est idéale pour le couloir, la salle de bain et la cuisine. Le détecteur de mouvement augmente la luminosité lorsqu'il détecte du mouvement à proximité.

USA: Federal Communications Commission (FCC) statement

This device complies with FCC part 15 FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

FCC Warning

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient or relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

This device meets the FCC and IC Requirements for RF exposure in public or uncontrolled environments.

FCC ID: 2AQFW-NL01A

Disposal and recycling information

This product has to be disposed separately from ordinary household wastes at its end of life. Please kindly be aware that this is your responsibility to dispose electronic equipment at recycling centers so as to help conserve natural resources. Each US State or Canadian Province should have its collection centers for electrical and electronic equipment recycling. For information about your recycling drop off point, please contact your local electrical and electronic equipment waste management authority or the retailer where you bought the product.

Canada: Innovation, Science and Economic Development Canada's (ISED) statement

This device complies with Industry Canada license exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause interference, and
2. This device must accept any interference, including interference that may cause undesired operation of the device.

This Class B digital apparatus complies with Canadian ICES-005

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

- (1) l'appareil ne doit pas produire de brouillage, et
- (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet appareil numérique de la classe B est conforme à la norme NMB-005 du Canada.

CAN ICES-005 (B) / NMB-005 (B)

IC ID: 24090-NL01A

Important Safety Instructions

Read and follow all safety instructions

1. Keep these instructions.
2. Heed all warnings.
3. This device is for indoor use only.
4. This device should not be exposed to dripping or splashing water.
5. This device is for adult use and should not be operated by children.
6. Do not use this device with extension cords.
7. Do not install this device near heat sources.
8. Do not disassemble the device. Substances contained in this product may damage the environment and/or human health if handled and disposed of improperly.
9. Do not place any sources of danger on this device (e.g.liquid filled objects, light candles).
10. Do not use abrasive cleaners to clean your device.
11. CAUTION: Risk of electrical shock and fire hazard. Only plug device into uncovered and well-ventilated wall outlets. Keep device away from bed coverings and other flammable materials.

Instructions de sécurité importantes

Veuillez lire et respecter toutes les instructions de sécurité.

1. Garder ces instructions.
2. Respecter tous les avertissements.
3. Cet appareil est destiné à un usage intérieur uniquement.
4. Ne pas exposer cet appareil à des gouttes ni à des éclaboussures d'eau.
5. Cet appareil est conçu pour être utilisé par un adulte, ne jamais laisser un enfant l'utiliser.
6. Ne jamais brancher cet appareil sur une rallonge.
7. Ne pas installer cet appareil près d'une source de chaleur.
8. Ne pas désassembler cet appareil; il contient des substances qui peuvent être dommageables pour l'environnement ou nuire à la santé humaine s'il est manipulé ou éliminé incorrectement.
9. Ne pas déposer une source de danger sur cet appareil (p. ex. des objets remplis de liquide, des chandelles allumées, etc.).
10. Ne pas utiliser de produits abrasifs pour nettoyer l'appareil.
11. ATTENTION : Risque d'incendie et de décharge électrique. Brancher cet appareil uniquement dans une prise électrique non couverte et bien aérée. Placer l'appareil loin du couvre-lit et de tout autre matériau inflammable.
