Quick Pairing Guide

STEP 1

1. Bring the product near your phone and firmly press the button once to power it on.

Notes

- Before pairing or unpairing the product, ensure that Bluetooth is enabled on your device and a stable network connection is available.
- Before pairing, first download the "Find Hub" app from the Google Play Store.
- After powering on the product, complete pairing within 5 minutes. If pairing is not completed, the product will automatically power off. To power on again, press the button once.

Quick Pairing Guide

STEP 2

2. A pop-up window will automatically pop up on your phone. Then tap "Connect" > "Agree and continue" > "Open app" > "Allow access to nearby devices".
